# MISS HORROR

---

TO BE HONEST WHAT I'VE SEEN HERE IN THE  
NETHERLANDS PARTIES GET MORE  
COMMERCIAL AND LESS ABOUT THE FETISH,  
IT JUST SEEMS TO ME THAT THEY RATHER  
MAKE MORE MONEY THAN REALLY DIG IN  
THE FETISH SCENE

---

**In a tweet size, who is MissHorror?**

I'm a 21 year old Dutch latex/cosplay model, a gamer and a 24/7 weirdo who enjoys horror movies.

**Do you prefer shooting outdoors or indoors?**

I absolutely prefer shooting outdoors, there is so much to do and play with, so much depth in the pictures and it just speaks more to me.

**What did you study?**

I studied for management, but unfortunately it's very hard to get a job in that industry, especially for the clothing/makeup style that I have, we do not have a lot of alternative stores here in the Netherlands.

**When did you decide to work in the fashion industry?**

I actually didn't start myself, when I was 18 I was asked to do a photoshoot and agreed to do it, I really enjoyed it and it gave me a lot of confidence so after that I decided to continue and kind of rolled in to it.

**Why do you like the model/fashion world?**

I love the people I get to meet, I made so many new friends in different countries, absolutely love the clothing and of course the gorgeous results we get from the photoshoots, plus I always have a lot of fun on set, but when work has to be done I'm very serious but apart from that I'm a very outgoing and goofy person.

**How do you feel inside a fetish suit wearing 16 cm heels?**

It feels empowering, like I can take on the world. I just feel very strong, dominating, sexy and super confident.

**What do you think of latex outfits?**

I absolutely love and adore them and always want more, I can never have enough latex outfits. I even do most of my cosplays in latex as well, it feels like a second skin, more like walking around nude but being shiny haha.

**Is it easy to stand out in this world, or is everything already invented?**

Well I started standing out when I was around 4, always wanting to wear black and never any colors except for red. Of course I had different alternative styles but never looked like the rest, for me this is just who I am and yes that stands out apart from the rest and people see that as well towards my modelling.

**What do you prefer: a normal photoshoot or something more alternative? Why?**

Look at me and make a decision haha. No, I don't enjoy/like the normal photoshoots and rather do something more alternative since that's just my style and the person I am. I rather stand there in my catsuit, high heels and mask than in a flowery dress in a park.

**Do you do any performances or other artistic work?**

Well I sometimes do catwalks on fetish parties, I cosplay at comic/anime conventions and I stream my games on Twitch if you want to call that artistic haha.

**Is the fashion industry cruel with alternative models?**

Yes it is. My Instagram account was deleted and I asked some of the models if they could share my picture to make this known, they had the same experience and asked me to do it for them so I did.

But they just read my message and ignored it. And especially for my black/red hair (which I have had since I was 16) I get compared a lot to Starfucked and Dani Divine while I just try to be my own person. I don't want to be seen as a copy/paste because I certainly am not.

**Which photographers would you like to work with any why?**

I think I had the best experience with Andrew aka Killer Heels Photography, just everything was planned out, I didn't need to bring anything except my makeup, he booked the hotel and made sure I was on time for everything. Definitely my best experience ever, plus we had a lot of fun during our shoots, 14+ outfits in 1,5 days.

**Do you think the use of Photoshop has distorted reality?**

If you use it heavily then yes, but eventually the truth will come out, if people would meet you in real life and you look nothing like your picture then yes it will become known. I don't mind so smoothen my skin a bit, make the colors look brighter, but please don't photoshop 10kg of my body because that's not the person I am.

**Are you an exhibitionist? Do you like it? Thousands of eyes looking at you, admiring you?**

I am a bit of both, can be an introvert but also an extrovert. I did a catwalk at Wasteland this year in front of 5000 people and it didn't make me nervous at all, I would be though if I had to speak.

**What wouldn't you do even if you were paid all the money in the world?**

Change the person I am, for me it's important to stay true to myself because that is what people like and enjoy about me, my goofy personality I see so many people change because they have a lot of followers or money but that wouldn't be me

**Name a couple of models you admire or have as a reference?**

I think my number one/only model/cosplayer would be Jessica Nigri, she inspires me so much with just the way she is/act, she's not ashamed of anything, has the most gorgeous pictures and makes the most amazing cosplays. She's such a genuine and kind person, and that really inspires me to always be genuine and kind as well because it brings so much good things Plus she really inspired me to get back into cosplay

**What is your definition of beauty?**

Old but gold, personality, of course for modelling you do need good looks, let's be honest about that But for me when it comes to beauty outside of modelling it would be personality

**How important is your family?**

My mom, grandma, dad and stepmom mean the world to me, I don't really have a strong connection with the rest of my family I see my mom and grandma every week, since I always have dinner with my grandma on every Friday of the week and call her every other day My dad and stepmom live on the other side of the country so I see them every few months but call them every week

**If you could, what historical period would you live in?**

Prehistorical No explanation needed, I would ride on a T-rex for the rest of my life haha

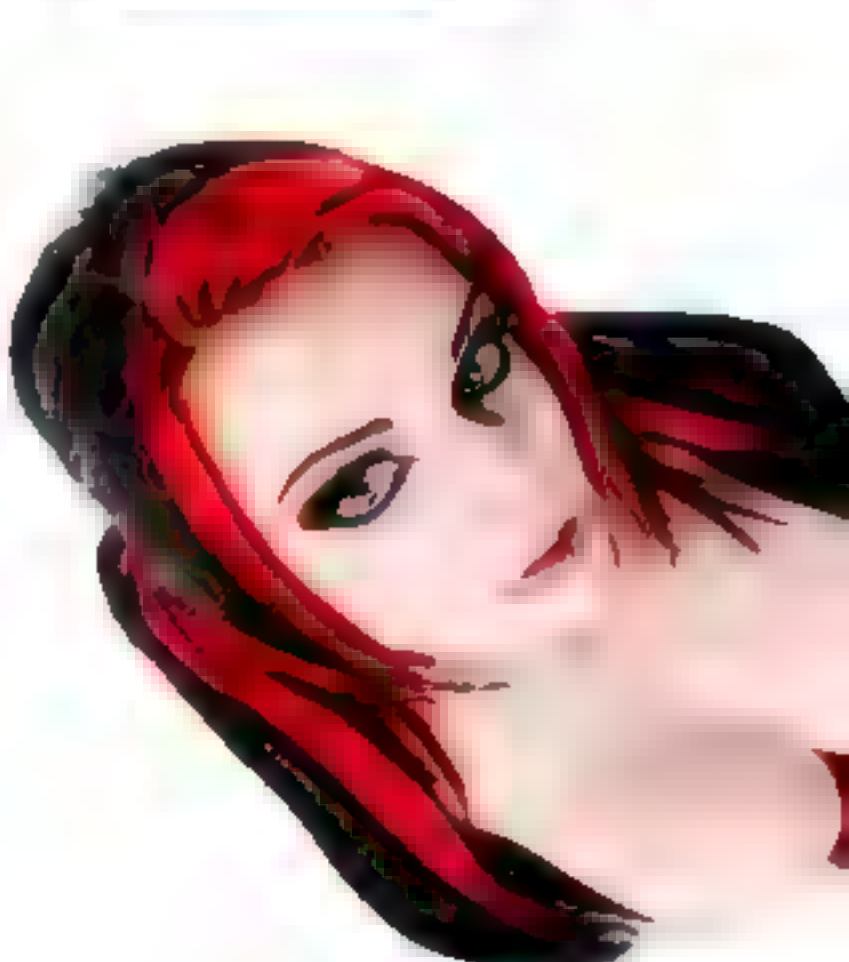

**How do you see the fetish world today?**

To be honest what I've seen here in the Netherlands parties get more commercial and less about the fetish, it just seems to me that they rather make more money than really dig in the fetish scene

**Talk about your projects for the future?**

I would love to do modelling/cosplaying as a full-time job, but here in the Netherlands I don't really have that option since no one wants to pay for a model, like we use to say in Holland "kijken kijken niet kopen" which basically means that we love to look around but when it comes to the point of buying we pass it along I want to move to the States around L.A. better weather and a lot more opportunities Dream big they always say because if you dream small nothing really becomes of it

# INKED SEPHORA

**In a tweet-size, who is Inked Sephora?**

I'm Inked Sephora. I work worldwide as a tattoo model. Proud owner of the alternative modeling agency Inked Sephora International Ltd

**Do you prefer shooting in outdoors or indoors?**

I don't have a preference, to be honest. I love to be a photo-model so for me matter just the weather conditions.

**What did you study?**

My latest studies were in the United Kingdom. I was studying the College for development of Third world countries.

**When did you decide to work in the fashion industry?**

A couple of years ago.

**Why do you like the model/fashion world?**

It always inspired me since I was small and I was professional dancing Standard and Latin Americano dances which is also a lot about being on stage and represent you, your beauty, dresses and learned skills

**How do you feel inside a Latex suit (or another material) and wearing 16 cm high heels?**

I was a professional dancer, and I just loved all my dresses and high heels. So whenever I wear latex suits and high heels, I feel like a home. Ahahaha

My latest experience of wearing several latex suits was from the designer Tatjana Warnecke She, and her dresses are so amazing. I felt it like in the second skin of mine

**What do you think about Latex outfits?**

I like that they are mostly pretty tied, shiny and show all your curves. I think that almost every woman feels so sexy in them

**Is it easy to stand out in this world or everything is already invented?**

It is, but if you are creative and don't hesitate with your own ideas, you don't get lost

**What do you prefer: a normal photoshoot or something more alternative? Why?**

I always prefer some more exclusive and creative projects. Regular photoshoots are ok with me but the creative ones are spicier, and that also includes more fun.

**Do you do any performances or another artistic work?**

As I said I was a professional dancer in the past, and I love to play piano and sing but only privately

**Is the fashion industry cruel with the alternative models?**

Many times yes, and this is what my agency is trying to change. A lot of alternative models are considered to be mostly for TFP shootings, and the photographers or agency are not willing to pay them what they deserve. It is also work and time for the models so I don't see the point why they shouldn't be financially appreciated.

**Which photographer would you like to work with?**

Billy Ward, Jack Raynor, Phoenix art Photography

**Do you think the use of Photoshop has distorted reality?**

In many cases yes, for example, that many of the models and agency are reshaping the models to a totally different look than they are in reality. This makes me many times a lot of troubles when I cast new models, and they come in a different shape than they presented themselves on their photos

**Are you an exhibitionist? Do you like it? Thousand eyes looking you, admiring you?**

I would say that I am. I am used to be watched by thousand eyes from my dancing competitions in the past

**What wouldn't you do even if you were paid all the money in the world?**

Prostitution, escort services

**What is your definition of beauty?**

Maybe for me, this quote fits the best: "The best part of beauty is that which no picture can express."

**How important is your family?**

They are the ones who are the closest to my heart.

But I don't restrict this feeling only to my real family it applies also to some of my friends

**If you could, what historical period would you choose to live in?**

I accept and respect the time I was born in, so I wouldn't like to change anything

**How do you see the fetish world today?**

I can't say so much about how it was in the past. Maybe pretty stiff I guess, so in nowadays it is indeed open.

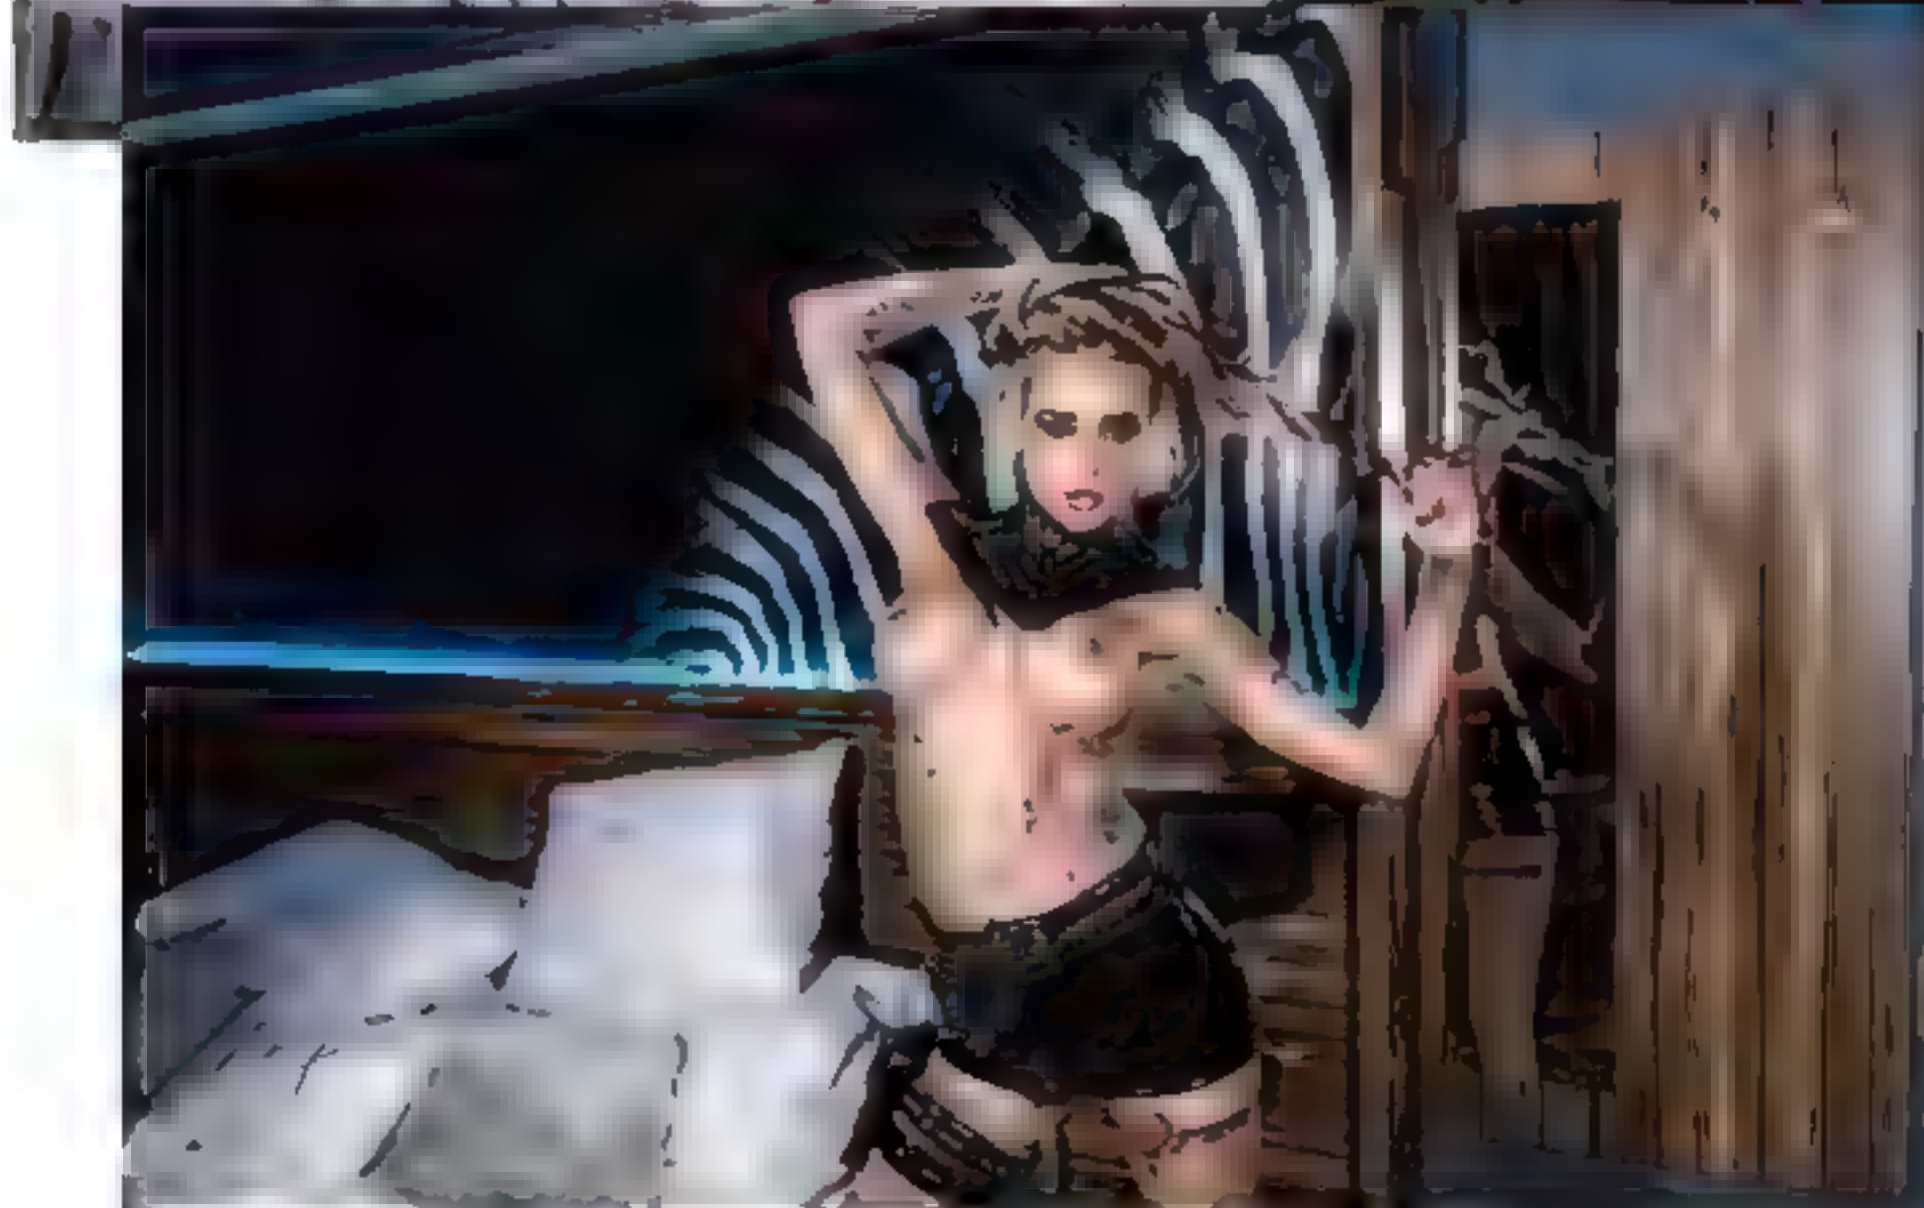

**Tell us about your projects for the future:**

Getting more collaborators to work with, photo shootings, building up my modeling agency, tattoo and other conventions and trying to get more into a fetish modeling industry.

**Is there anything else you would like to add?**

No, thanks, I think I said more than enough about me D

# ZARA DUROSE

---

I THINK EVERY TYPE OF SHOOT HAS A PLACE! SOMETIMES IT'S FUN TO GET CREATIVE & DO SOMETHING VERY DIFFERENT, SOME DAYS I PREFER THE 'NORMAL' SIDE OF FILMING/PHOTO SHOTS. IT DEPENDS WHO I'M WORKING WITH WHO CAN PRODUCE THE BEST RESULTS.

---

**In a tweet size, who is Zara DuRose?**

Zara DuRose is a multi-award-winning fetish & adult model. Kinky event organizer & general pervert.

**Do you prefer shooting outdoors or indoors?**

I generally prefer indoors, the UK weather doesn't lend itself to many outdoor shoots! Also with a studio etc you can control the lighting & final effect more

**What did you study?**

I studied Art & Design in college, but dropped out after a year... I was never the academic type

**When did you decide to work in the fashion industry?**

I wouldn't say I work in the fashion industry... more the adult fetish industry! I decided to go full time in that industry in 2012, but my perversions have always been there...

**Why do you like the model/fashion world?**

I love the variety my job has, every day is different & there's always opportunities for new projects around the corner!

**How do you feel inside a fetish suit wearing 16 cm heels?**

I love wearing full latex suits & big heels, they allow me to feel confident & free

**What do you think of latex outfits?**

I've been a latex fetishist since I was very young (because of rubber swimming caps) & got my first piece when I was 15! There's over 60 outfits in my latex wardrobe. The feel, smell & look are all what interests me, the second skin feeling is amazing

**What do you prefer: a normal photoshoot or something more alternative? Why?**

I think every type of shoot has a place! Sometimes it's fun to get creative & do something very different, some days I prefer the 'normal' side of filming/photo shoots. It depends who I'm working with who can produce the best results.

**Do you do any performances or other artistic work?**

I also do 'mainstream' porn, working for companies such as Brazzers, Fake Taxi & Digital Playground etc

Since 2015 I've also run fetish parties in London, Manchester & Birmingham, for 500+ people! The next ones are 23rd June, ZDR Fairytale in London

& 21st July, ZDR Wonderland near Birmingham.

**Is the fashion industry cruel with alternative models?**

Not in the side of the industry I have worked in! Everyone I've worked for or with have been completely professional & non-judgmental.

**Which photographers would you like to work with any why?**

I always enjoy working with Killer Heels in Aberdeen, the creative team are amazing & it's always such fun

I'd like to shoot with Peter W. Czemich one day as he's been a big influencer in the fetish world & I've always admired his work.

**Do you think the use of Photoshop has distorted reality?**

Yes, in the beauty industry But in the fetish/alternative world I think it's enhanced the ability to be creative

**Are you an exhibitionist? Do you like it? Thousands of eyes looking at you, admiring you?**

Yes, I would say I'm an exhibitionist, especially when it comes to being filmed. It allows me to be confident & enjoy myself

**What wouldn't you do even if you were paid all the money in the world?**

That's a hard question! No one really ever knows until the opportunity arises! I suppose everyone has a price though ..

**Name a couple of models you admire or have as a reference?**

Dita Von Tesse has always been a huge inspiration! She's classically beautiful & a great business woman.

**What is your definition of beauty?**

Beauty comes from within, if you're a horrible person, you'll never be attractive!

**How important is your family?**

My husband is the closest family I have & the most important to me. The family you make yourself can sometimes be better than the ones you are born with.

**If you could, what historical period would you live in?**

I love the outfits of the Victorian era, but not the disease & lack of hygiene!

**How do you see the fetish world today?**

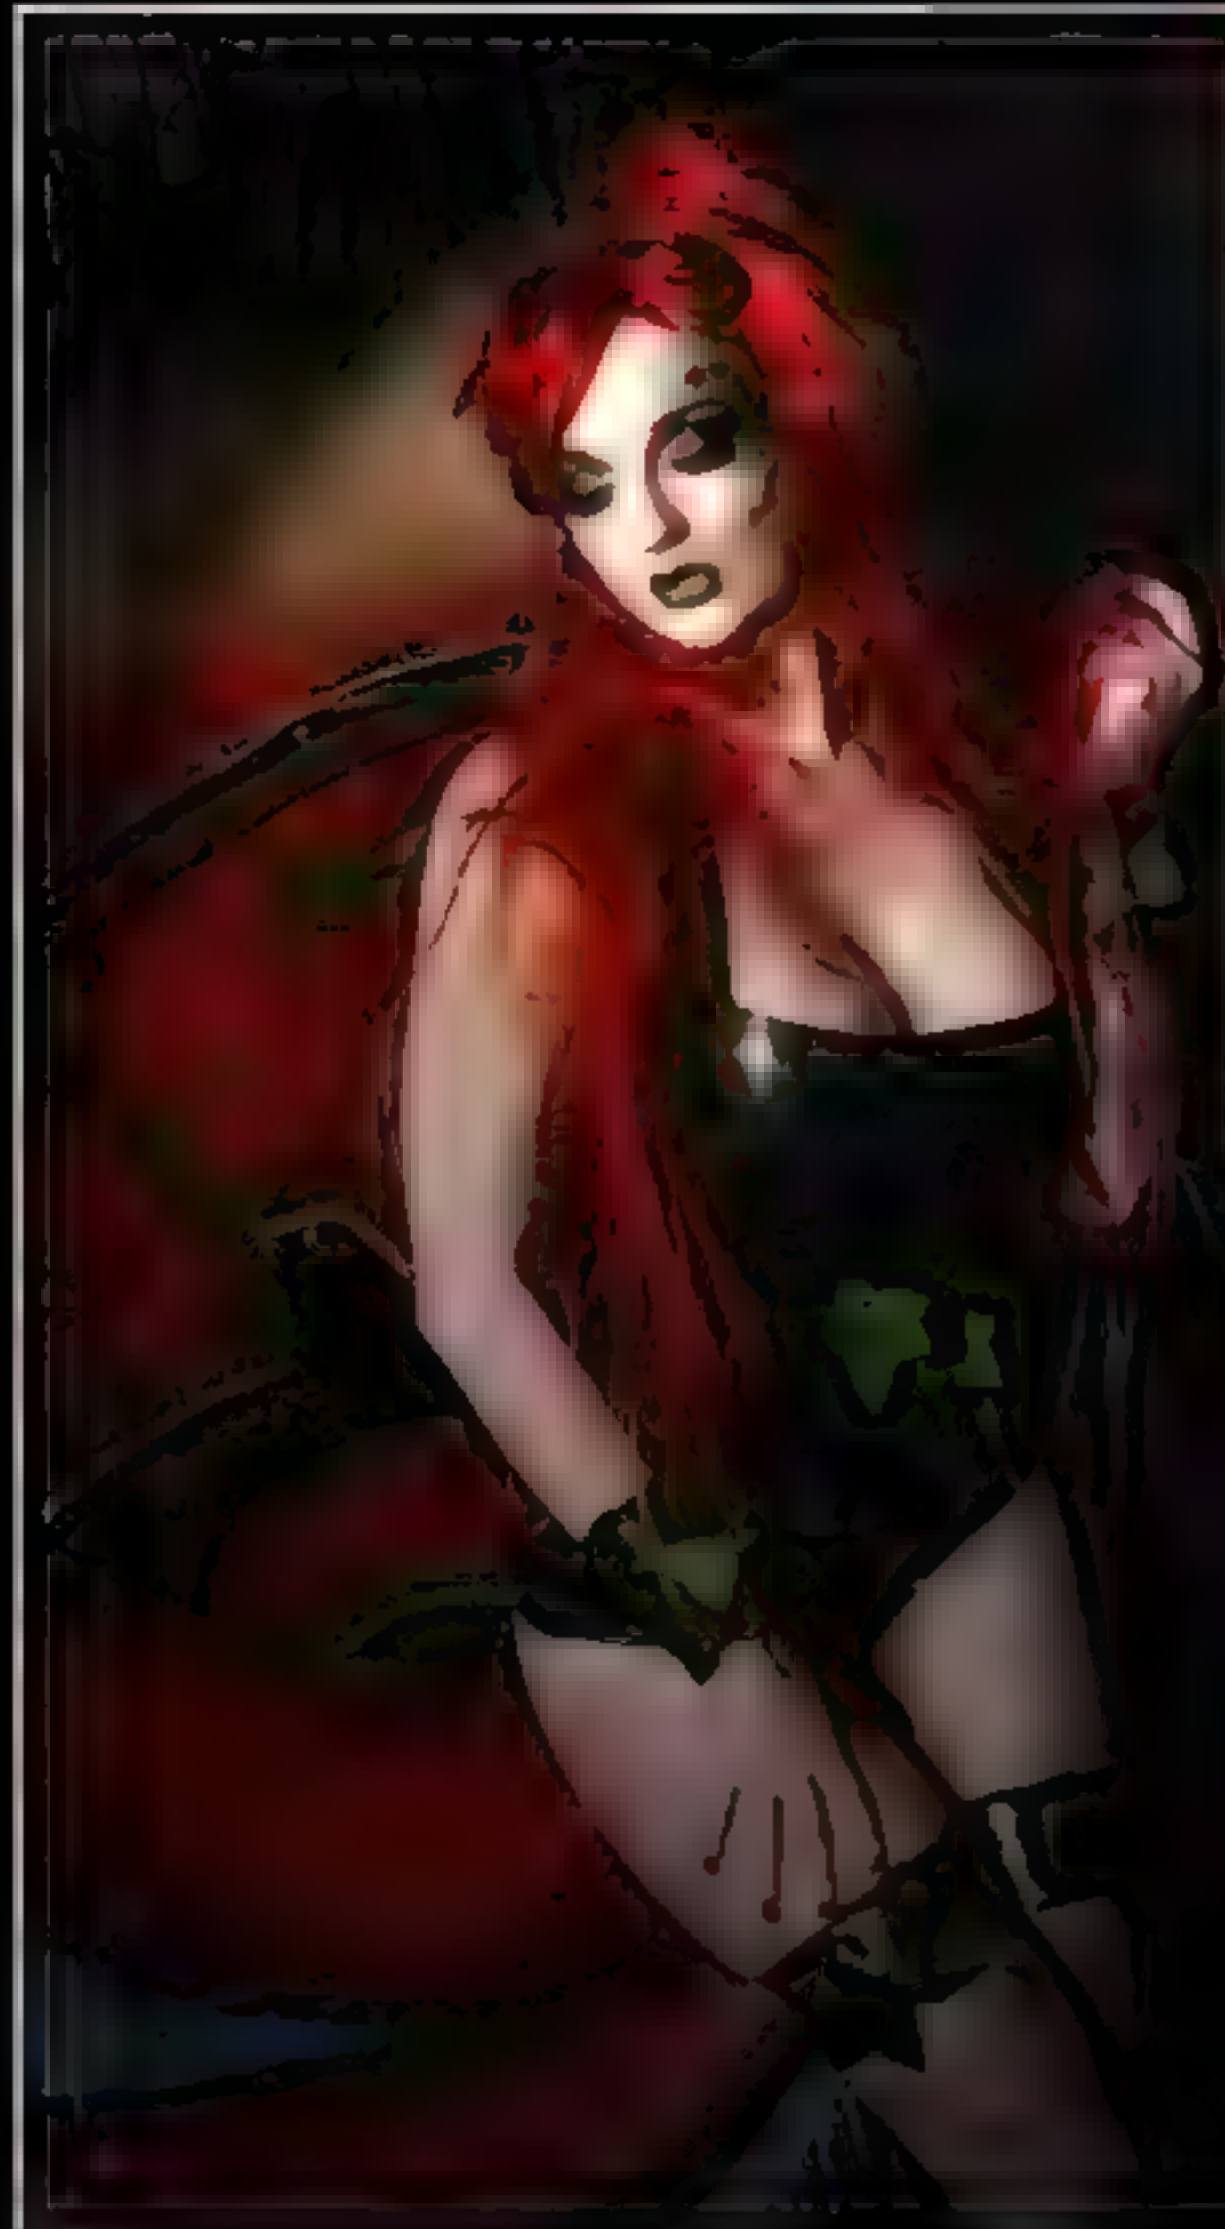

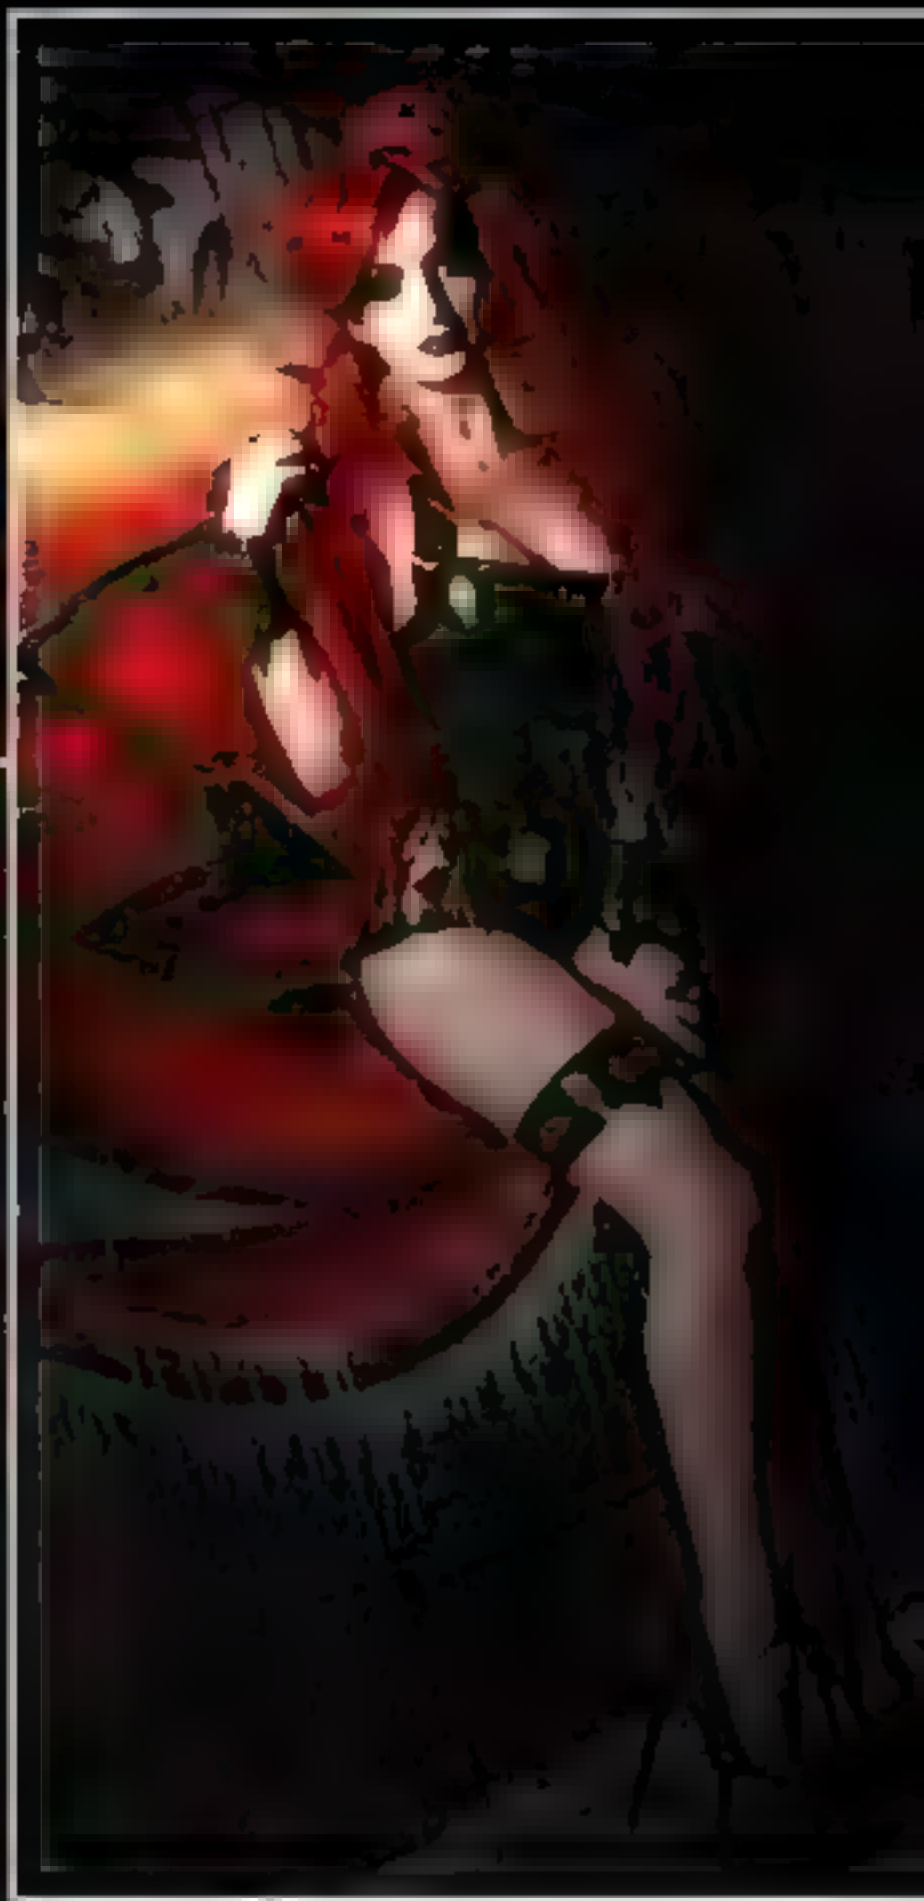

The fetish world is a fantastic playground of diversity!

**Talk about your projects for the future?**

In 2018 I am planning to concentrate on my events more, we have some very exciting things planned. I'd also love to be involved in the shows in Europe again (GFB etc) and carry on filming for different sites. It's still early in the year, so I haven't got any major goals, yet!

# BABYJOY

---

I WOULDN'T SAY "CRUEL", BUT THEY SOMETIMES DON'T SEE ALTERNATIVE MODELS AS REAL MODELS. WHICH IS, OF COURSE, TOTAL NONSENSE.

---

**In a tweet size, who is Babyjoy?**

Lips, hips and tits!

## **ABOUT MODELLING & FETISH**

**When did you decide to work in the fashion industry?**

It kind of just happened, I was doing photoshoots for fun (with my own outfits) and from there I moved on to working with designers. I think I did my first product photoshoot in 2014.

**Why do you like the modelling/fashion world?**

I think it's a great way to boost your confidence and feel good about yourself. I'm still walking on clouds after a good photoshoot and there are few things that makes me feel as good about myself and my body

**Do you prefer shoot outdoors or indoors?**

Both have their charm, but I am a bit of a control freak so I would say indoors is my favorite. Since you can't really trust the weather even for a second in Sweden, locations without a roof is always a risk.

**What do you prefer, a planned photoshoot or something more impromptu? Why?**

I always prefer to have the location decided beforehand, as well as a few different options for outfits. But trying out different styling, lights and poses are always good to get the most out of the photoshoot

**Is the fashion industry cruel with the alternative models?**

I wouldn't say "cruel", but they sometimes don't see alternative models as REAL models. Which is, of course, total nonsense

**Do you do any performances or another artistic work?**

During this winter, I have actually starred in three music videos (although I only got to wear latex in one of them). I was pretty sure I had zero talent when it came to acting, but it turns out I was wrong!

**Which photographer would you like to work with and why?**

Gosh, I have a long list that I would like to get through one day. Right now I'm trying to organize a photoshoot with Thomas Burggraf (Bommi) because he is so incredibly talented and I love the way he plays with lighting and perspective.

**Do you think the use of Photoshop has distorted**

**reality?**

Photoshop has been used for a long time to create a more appealing photo. I think the trick is to work with photographers that use it wisely and don't exaggerate. A photo where I am photoshopped beyond recognition is useless to me

**How do you see the fetish scene today?**

It is certainly diverse and that is truly great! It's nice to see all kinds of people embrace their fetish life and live out their fantasies.

**What do you think about Latex outfits?**

I absolutely love to wear latex! I think it complements every part of the body and it's such a great feeling. I like to say "it's like being naked, but better".

**How do you feel inside a Latex suit and wearing 16 cm high heels?**

I feel like a real boss!

**Is it easy to stand out in this world or everything is already invented?**

Sometimes it feels like everything has already been done, but then I get a great concept in my head, see an amazing design or get blown away by a photo and then I realize that it's always possible to create something new and fresh

## **ABOUT YOURSELF**

**If you were far from home and needed to sleep for the night, would you choose to rent a crappy motel room for \$60 or sleep in your car for free?**

I am way too bad at sleeping in uncomfortable places, so the crappy hotel bed would be my home for the night!

**Is there a color shirt you'd NEVER wear?**

Maybe brown, it's a quite moody color

**What is your favourite video game console? Why?**

I would have to say Nintendo 64. I am terrible at video games and I hate to lose, but I grew up playing all the different Super Mario games on a Nintendo 64 and it's still a fond memory

**Do you like vanilla candles?**

YES. A bit too much, perhaps. IKEA has the best ones!

**Would you ever bleach your hair platinum blonde?**

I have, for many years. My poor hair..

**What did you have for breakfast?**

Coffee, basically. I'm horrible at eating when I have

just woken up so I usually make some hummus sandwiches and eat at work.

**What time did you wake up today?**

About 9, I think

I think it was The great wall with Matt Damon. It wasn't a great movie though.

The 80's have the best outfits and music.. It would also be cool to be to Sparta circa 380 BC but I am not that fond of

WAR

Absolutely!

**What is your definition of beauty?**

Beauty to me is loving yourself

and to be proud of who you are. It always shines through when someone is truly at peace with themselves, and it's beautiful

I have studied both English and Business administration.

**Name a couple of models you admire or have as a reference:**

Lotte LaVey is amazing, I can't get over how beautiful she is! One of the coolest people to see at work is Psylocke, she is such a pro. I also have a soft spot for Lara Aimee, her pictures are really stunning.

**Tell us about your projects for the future:**

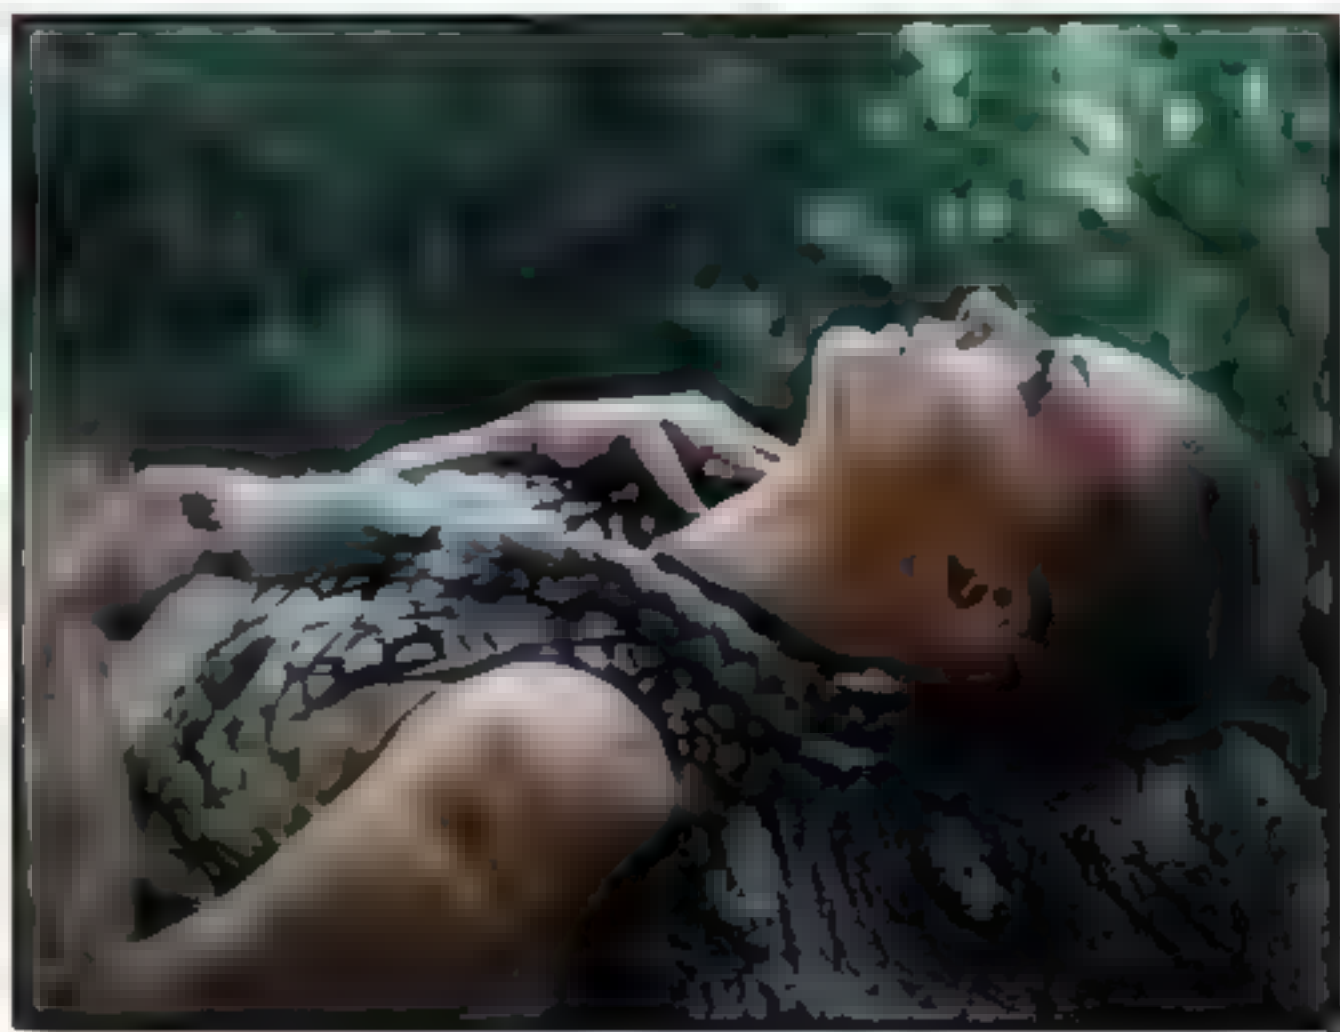

I intend to keep working with different styles and themes, both latex but also bodypaint and shibari. I try to visit a new country every year and have a photoshoot there. So who knows where I will be invading next?

# NEA DUNE

---

I PERSONALLY PREFER AS LITTLE EDITING IN MY PHOTOS AS POSSIBLE, BUT HAD MY FAIR SHARE OF DISSAPOINTINGLY OVEREDITED PHOTOS. IF YOU'RE ABLE TO CREATE A CAPTIVATING IMAGE WITH A GOOD POSE AND LIGHT, IT'S AN ARTWORK SHOWING THE SKILLS OF THE MODEL AND PHOTOGRAPHER.

---

**In a tweet size, who is Nea Dune?**

A Croatian chameleon alt model, actress & artist making her way up on Hollywood ranks.

**ABOUT MODELLING & FETISH**

**When did you decide to work in the fashion industry?**

It happened by accident really! Back in 2009 a Croatian alt designer Azdaja asked me to model at her catwalk and I fell in love!

**Why do you like the modelling/fashion world?**

It gives me the ability to express myself through style. I was never mainstream and this turned out to be the perfect outlet.

some amazing images captured impromptu. I nourish a consistent look IRL and in photos/video so I am always ready!

**Is the fashion industry cruel with the alternative models?**

Of course. Alternative is always frowned upon so to speak, in one way or another. As something different it defies the traditional notion of modeling, but nowadays that line is very blurred with the rise of plus-size models.

**Do you do any performances or another artistic work?**

Not anymore. As a trained dancer for the majority

**Do you prefer shoot outdoors or indoors?**

It really depends on the shoot theme, however I simply adore amazing nature locations and stunning architecture.

**What do you prefer, a planned photoshoot or something more impromptu? Why?**

Most of my shoots are planned but I hold dear

of my life I used to compete and perform (aerial arts and ballroom).

**Which photographer would you like to work with and why?**

From the fetish scene definitely Peter Czernich, pinup scene Robert Alvarado, haute scene Ellen von Unwerth.

**Do you think the use of Photoshop has distorted reality?**

Yes!! I personally prefer as little editing in my photos as possible, but had my fair share of dissapointingly overedited photos. If you're able to create a capti-

vating image with a good pose and light, it's an artwork showing the skills of the model and photographer. Hiding behind photoshop is easy; I find it astounding how many models look nothing like their photos these days.

**How do you see the fetish scene today?**

I learned that the fetish scene is so different continent to continent! I experienced the scenes around Europe, Canada and US, and personally prefer the European fetish scene, specifically British and TG as the classiest.

**What do you think about Latex outfits?**

Gimme some every day! Love me some pretty second skin.

**How do you feel inside a Latex suit and wearing 16 cm high heels?**

Powerful warrior! However I wear 20cm heels mostly, not a fan of lower ones ;)

**Is it easy to stand out in this world or everything is already invented?**

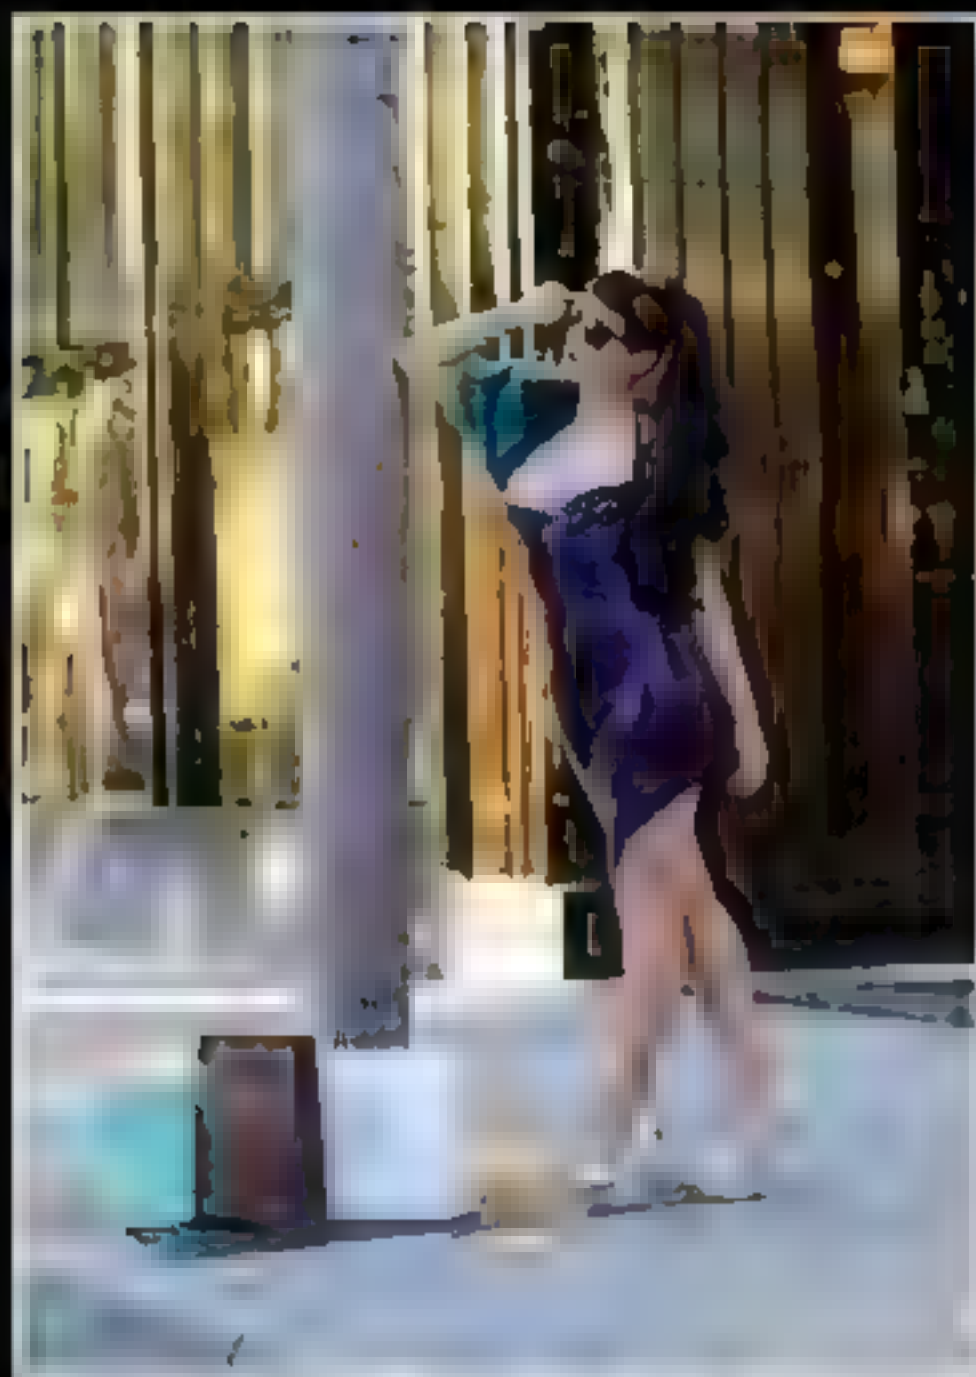

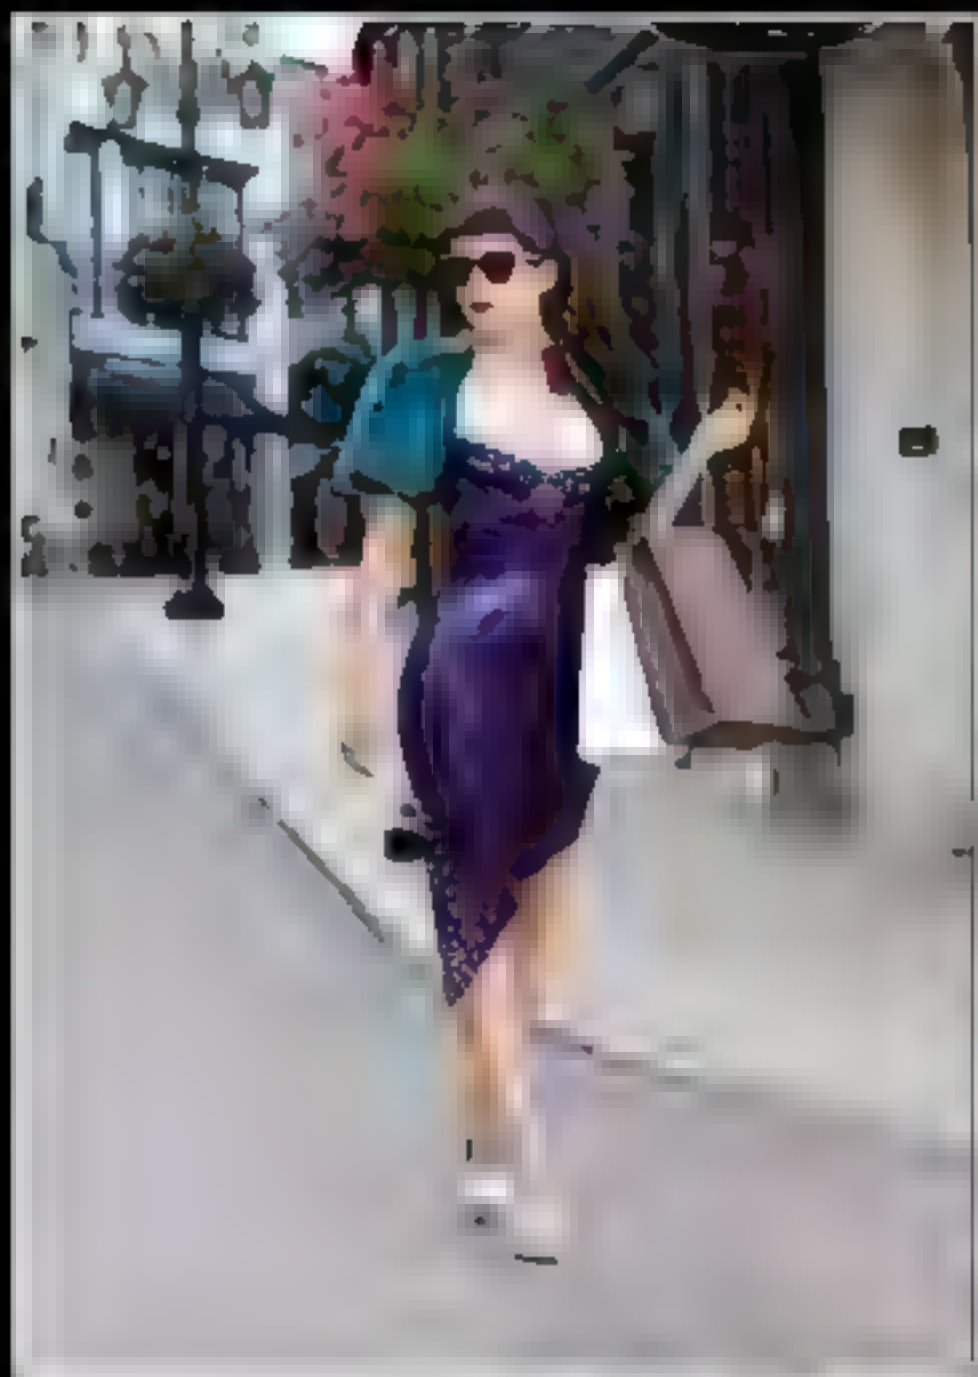

Not easy but also not impossible. Being yourself is what it's all about. I've always mixed up styles to find my own and could never fit into only one dra-

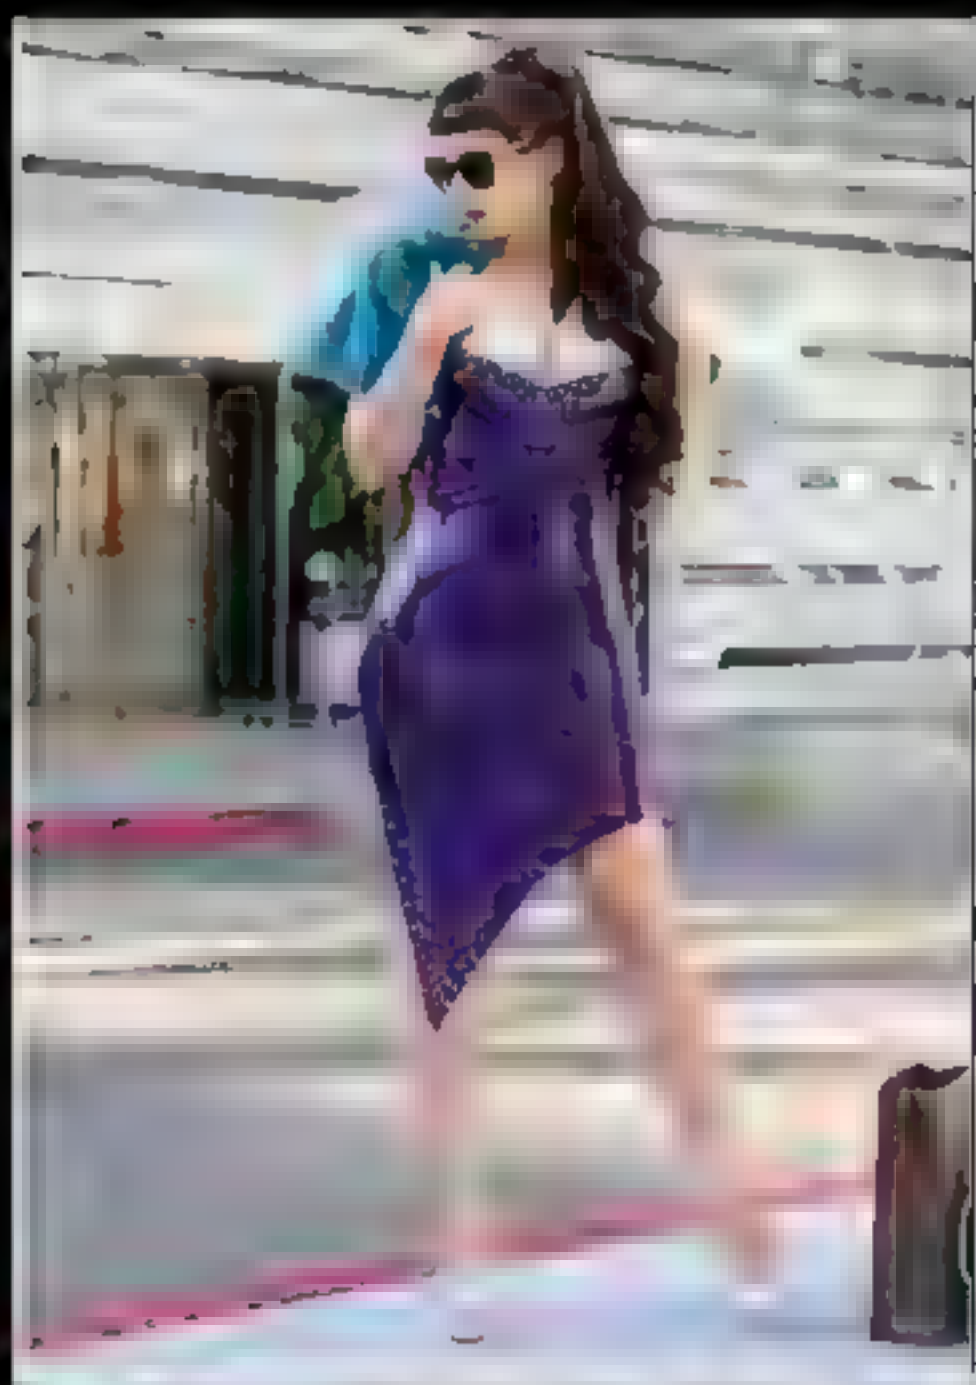

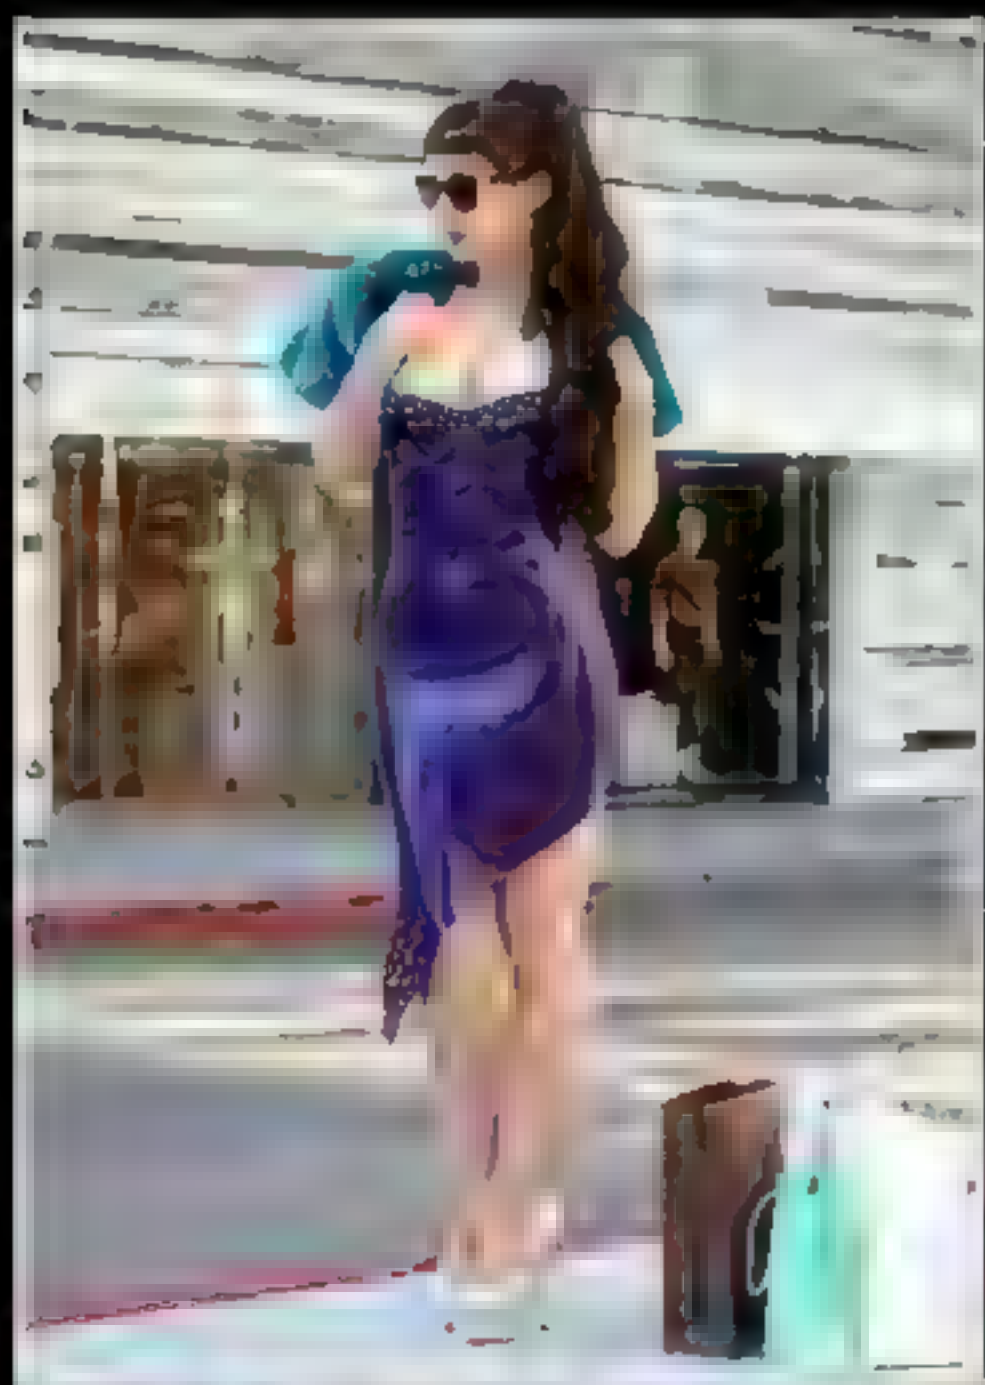

AWO

**ABC IT YOURSELF**

**If you were far from home and needed to sleep for the night, would you choose to rent a crappy motel room for \$60 or sleep in your car for free?**

Car I am no diva =)

**Is there a color shirt you'd NEVER wear?**

Maybe brown as I really dislike that color!

**What is your favourite video game console? Why?**

None I never became a gamer despite being a Doom addict as a kid!

**Do you like vanilla candles?**

Vanilla everything! One is always next to my bed

**Would you ever bleach your hair platinum blonde?**

I have and would again for a good role! Rocked platinum white hair for Montreal Fetish Weekend in 2014, and also had it bleached back in 2009 in Iceland-my pale self blended well with the locals =)

**What did you have for breakfast?**

Eggs and home-made flax-bread.

**What time did you wake up today?**

Before 7am. Ever since moving to Los Angeles I became an early bird, total opposite from living in Europe!

**What was the last movie you watched?**

Red Sparrow. Not a fan of Slavov-washing though

**If you could see any musician live, front row, who would you choose?**

Kurt with Nirvana

**What's the last song you**

**heard?**

Of Mice and Men ~

**Do you still talk to any of your ex's?**

Surprisingly, yes!

**Where's the last place you went?**

Last new place was a beachy shoot location in Rancho Palos Verdes.

**Are you happy when summer is coming?**

Always! Although it gets crazy hot here in Los Angeles, but over summer I visit home and enjoy the Croatian coast.

**What wouldn't you do even if you were paid all the money in the world?**

Anything degrading. I'm a classy lady

**If you could, what historical period would you choose to live in?**

That's a tough one... Egyptian royalty seems appealing!

**What did you study?**

Master degree in Spanish language and literature, Information Sciences, ph D in the latter

**What is your definition of beauty?**

It truly is in the eye of the beholder. As an alternative lady I quickly realized that something I consider beautiful is not always beauty to someone coming from mainstream culture.

**Name a couple of models you admire or have as a reference**

I've always appreciated the works of Dita von Teese and Mosh, whom I had the pleasure of meeting on set. I value the models who, just as I, have more than one skillset, whether it's a lifetime of professional dance training and bendy body or a scientific background. It really brings originality to the table

**Tell us about your projects for the future**

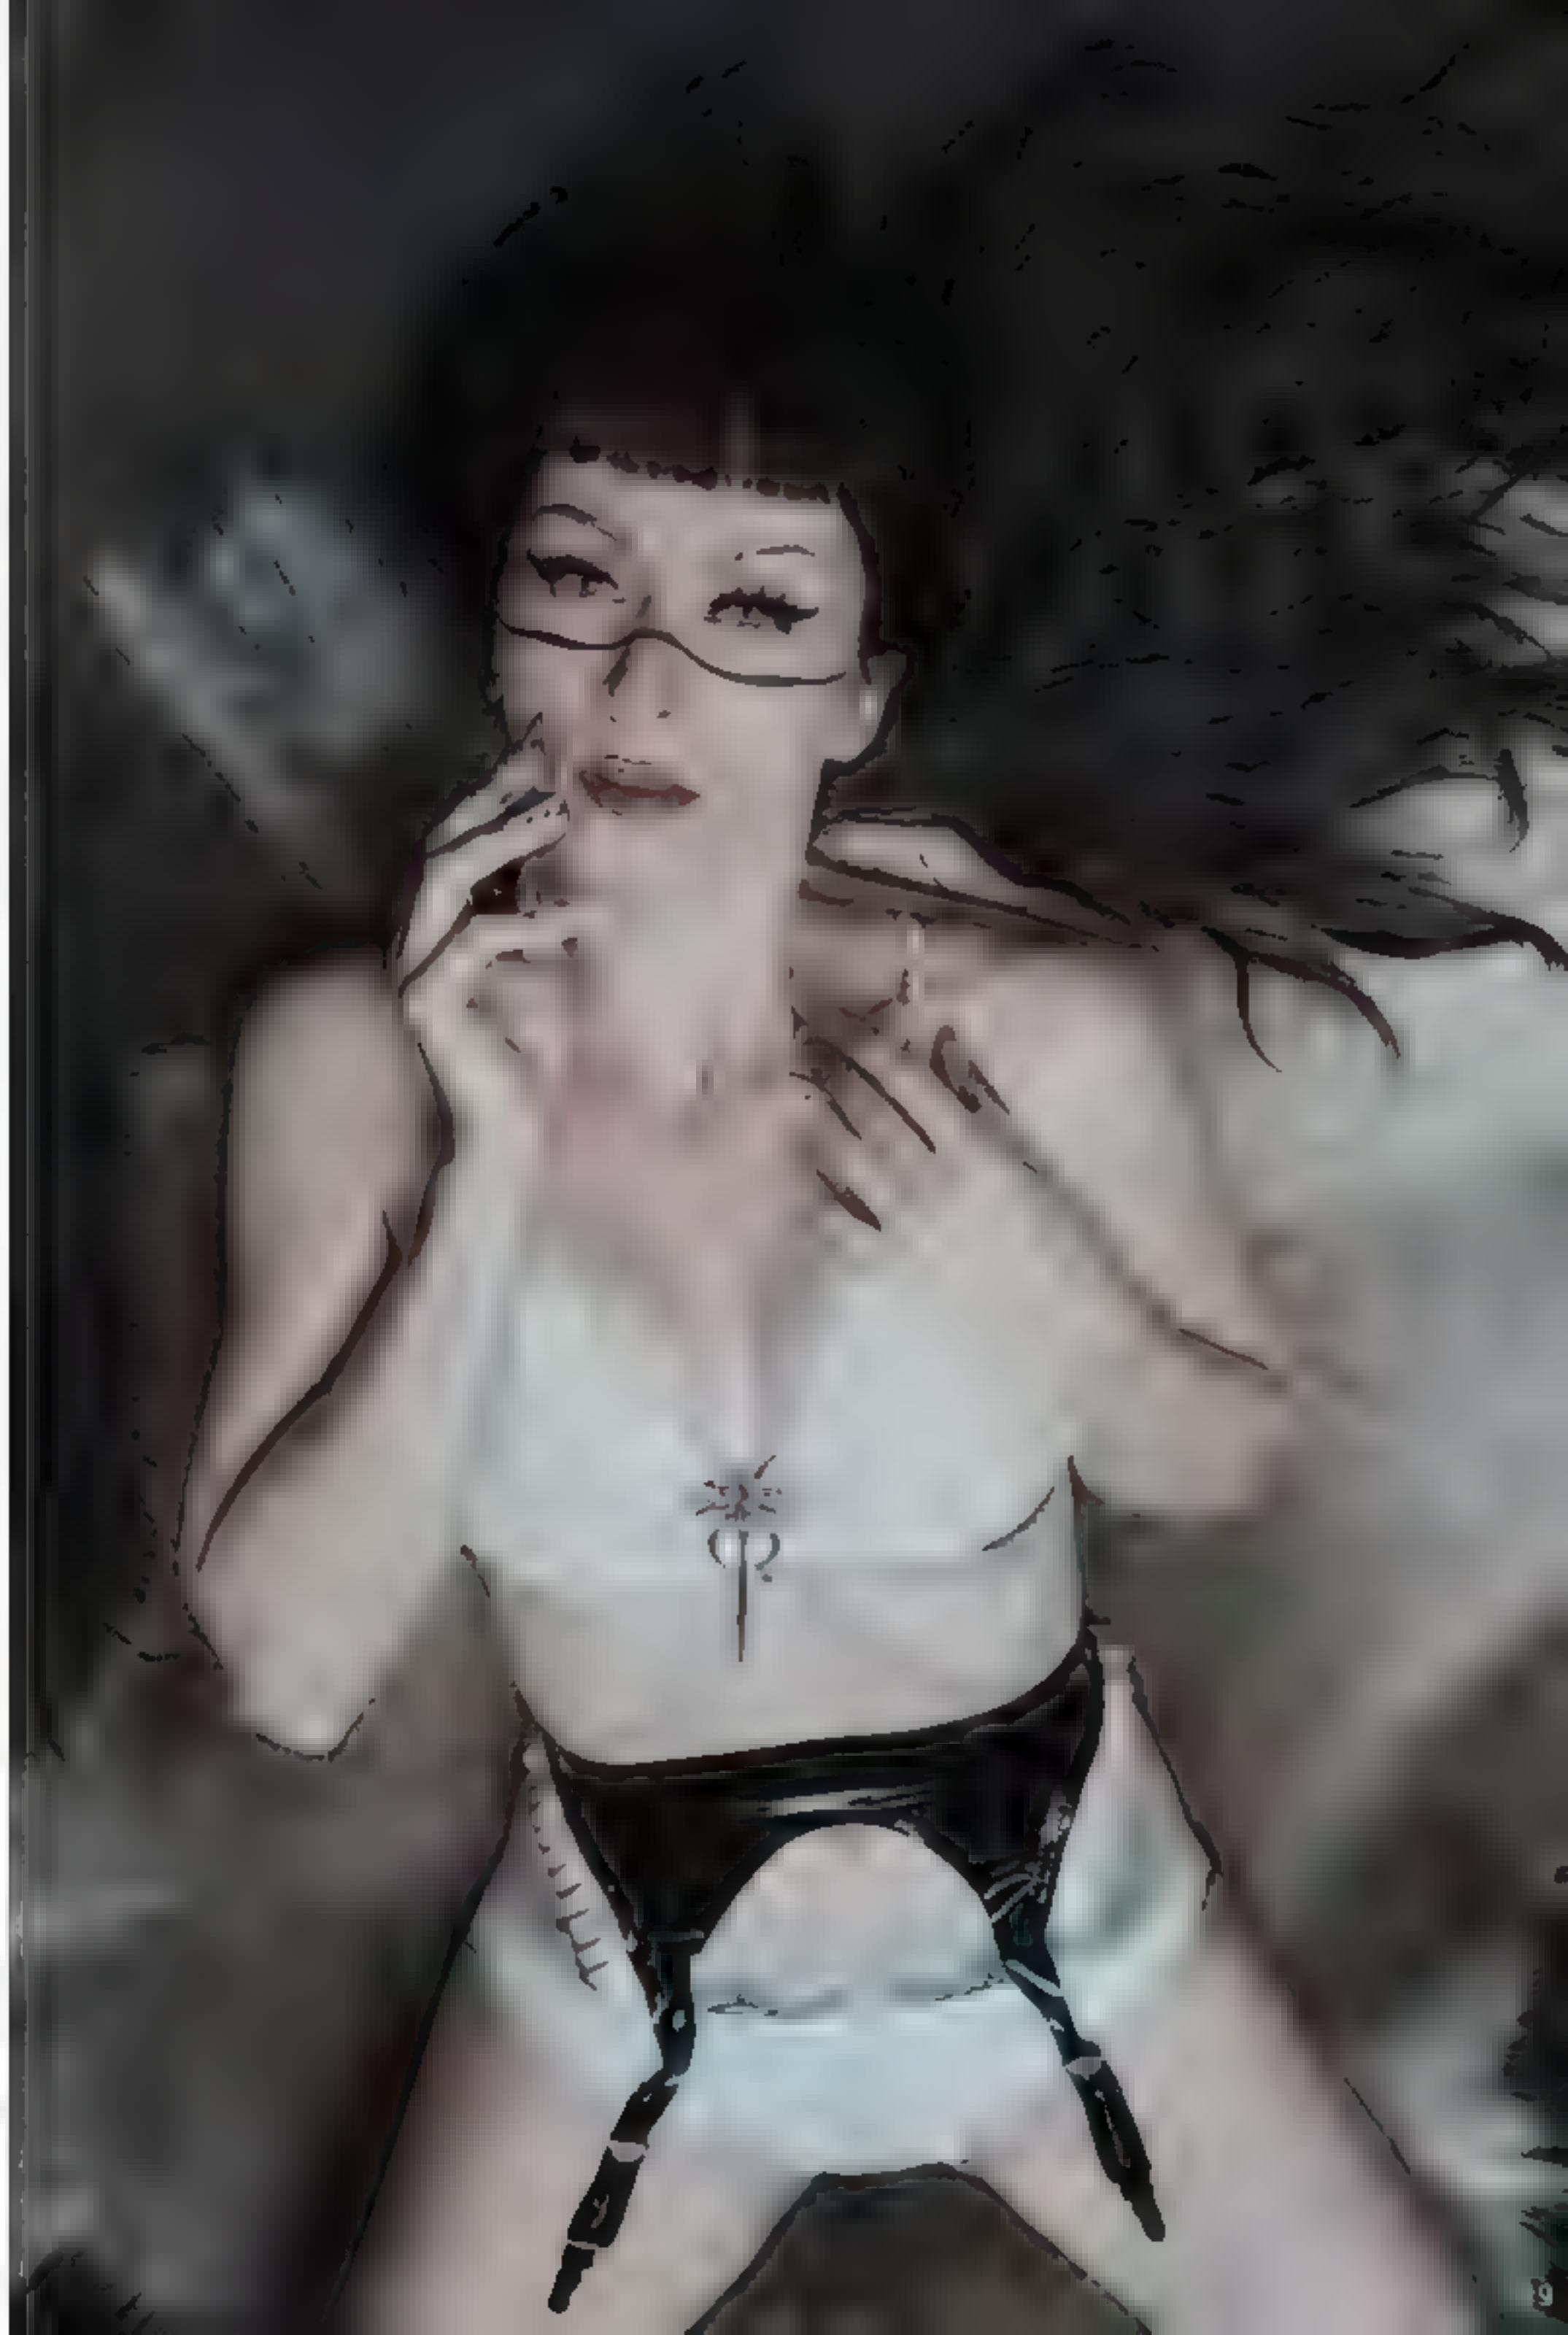

I have upcoming editorials for various alternative clothing and accessory brands, LAFW catwalk, fun film projects (including a Star Wars series on bounty hunters and my own short film)... you'll see a lot more of my face!

#### How would you describe yourself?

I would describe myself as a rising and hard working artist. I do what I love and I love what I do. That's why every drawing is a piece of myself. I'm working hard to raise my name and my art. I'm open to learn something new every day to become even better and if I put something in my mind I do everything necessary to make it come true

#### Why a Draw?

A draw is something timeless. Millions of years ago the cavemen started to draw and I'm pretty sure in the future spacemen will also draw. A draw will never change in the face of time. It's always good old handwork which needs a artistic talent.

#### Is the world ready for your art?

Maybe, maybe not. There always will be people who may not understand me and my art. But for everyone of this there will be ten people who love my art. This are the people who count

#### What did you study?

I work as a head storeman in a truck workshop for several years now. I never was interested in study for a better job. I always wanted to do something artistic and took the job to finance my dream but become very good in it after all this time

#### What is your favourite theme, PinUp, Latex, Terror....?

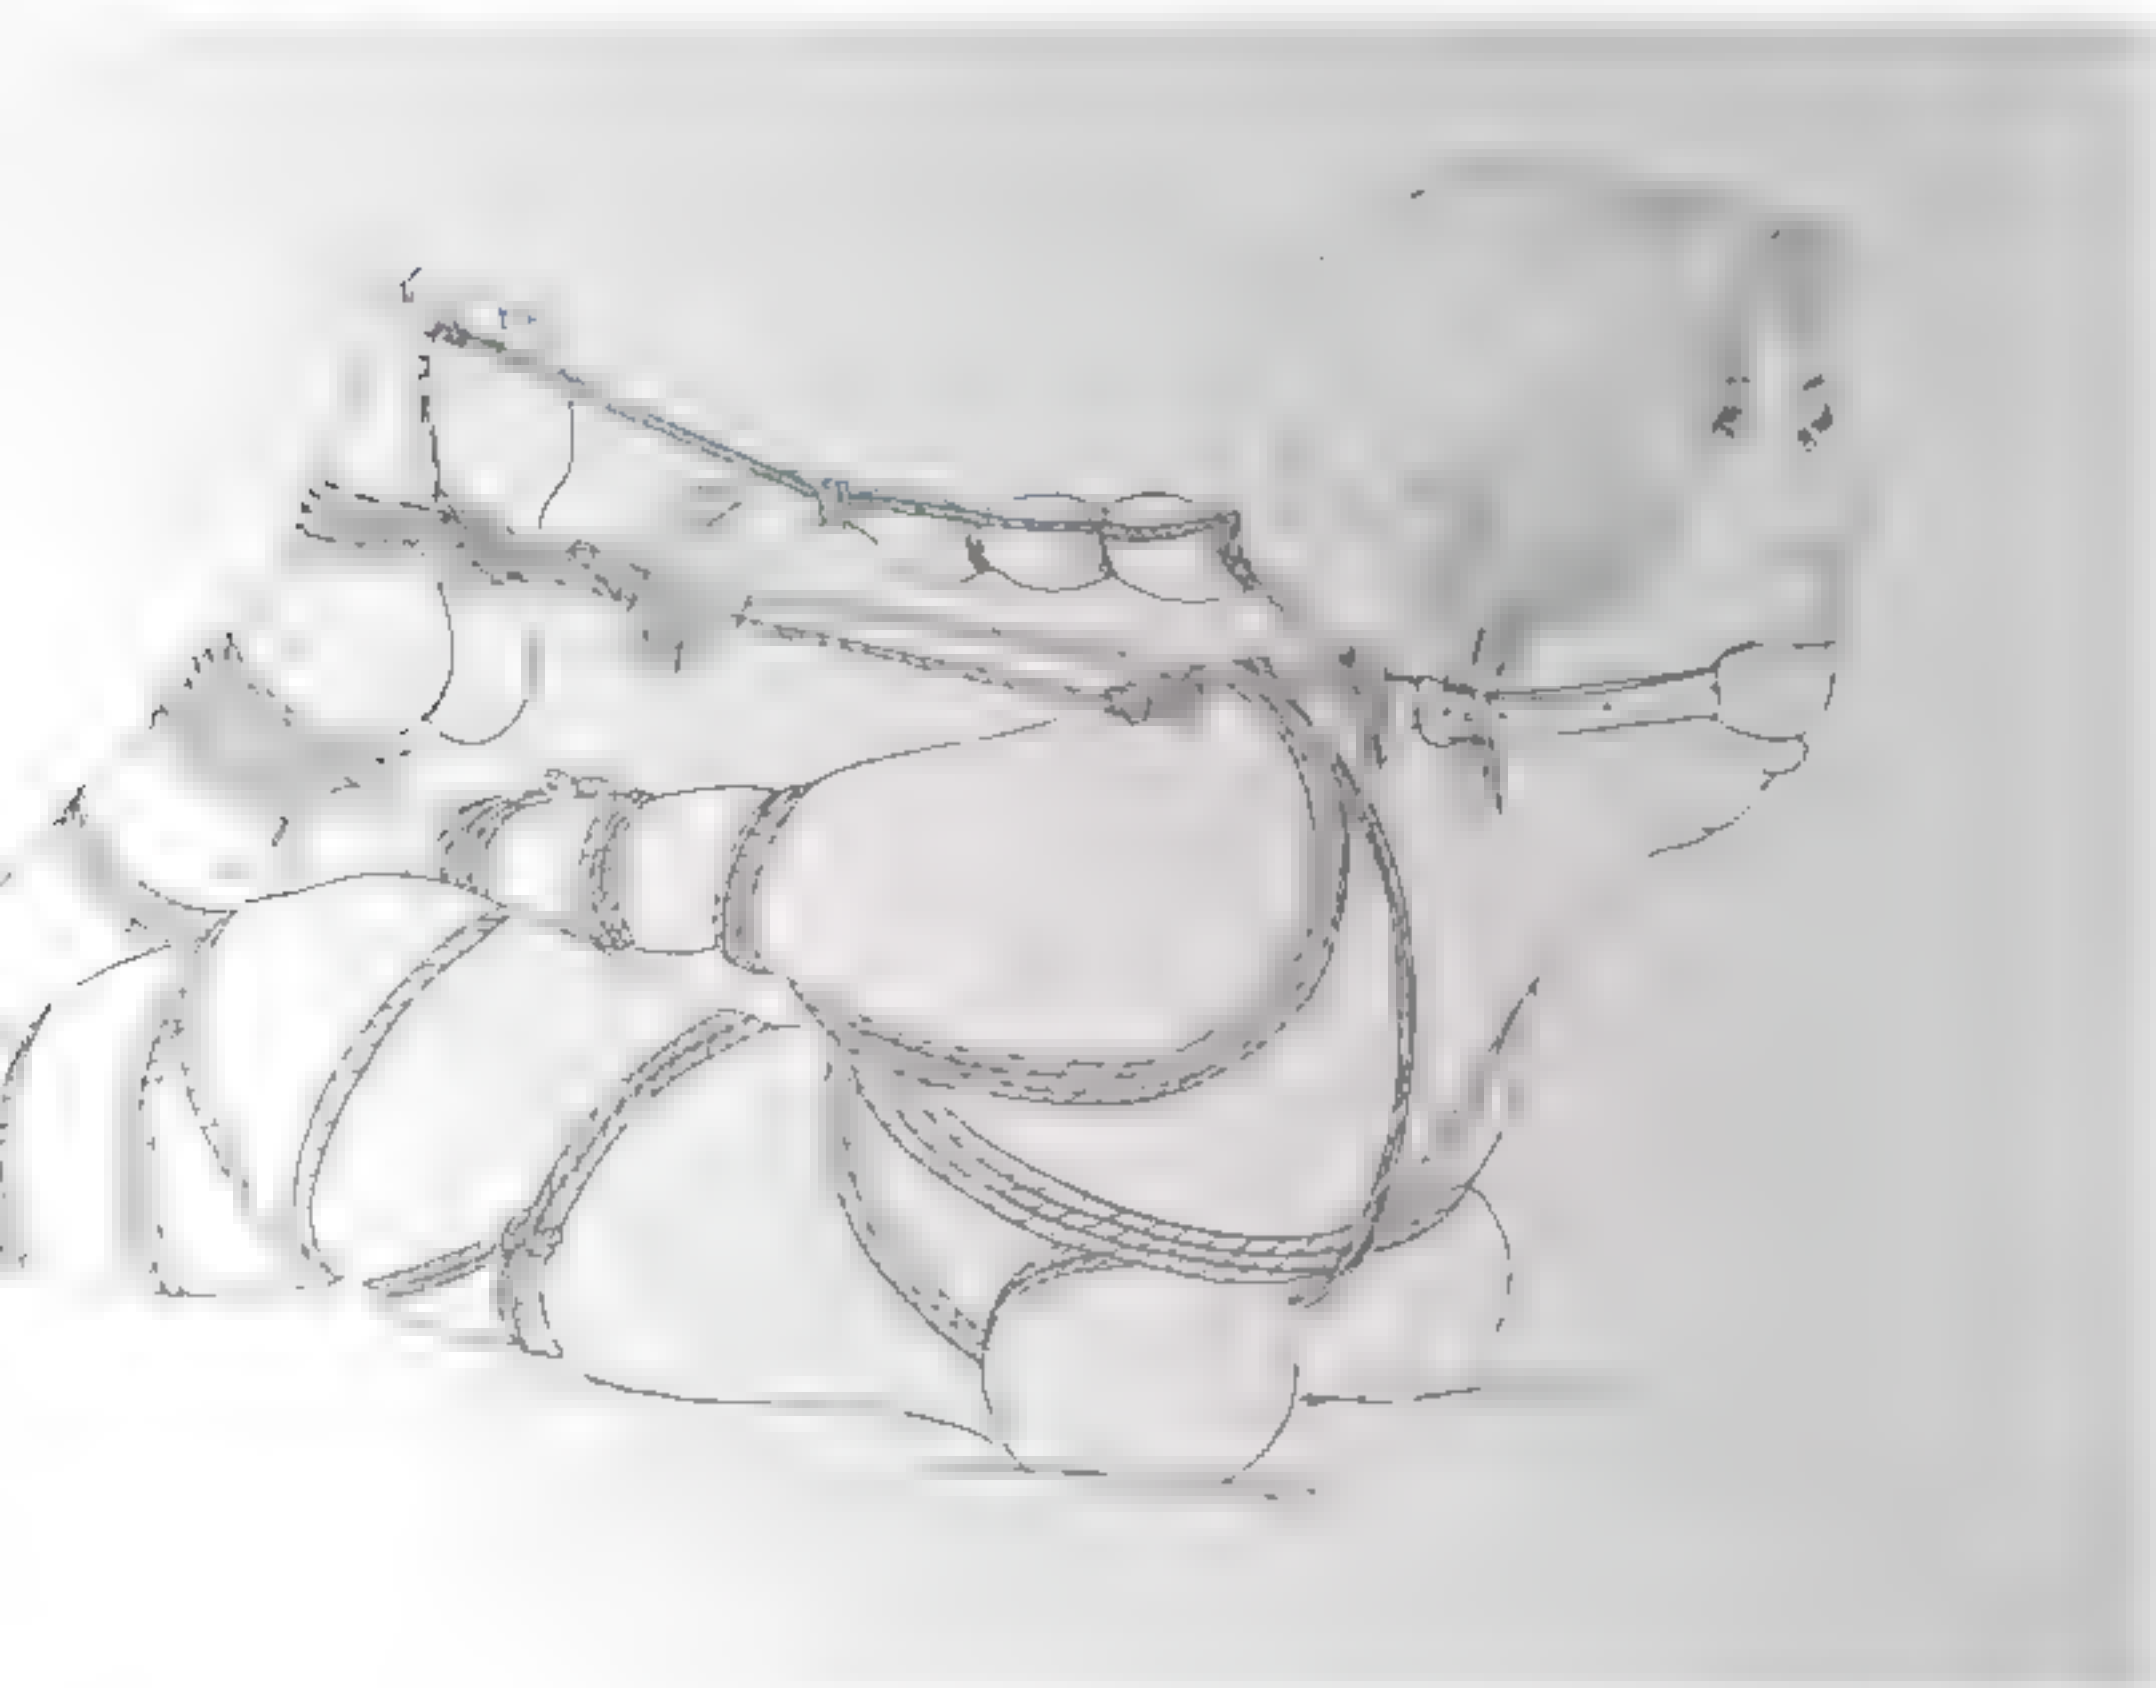

I love to draw Pin Ups. I lose my track of time when I start a new Pin Up drawing. But I also enjoy to draw bdsm art. A bound body in black and white is really a thrilling

#### How would you define your style?

I'm drawing a mix of realistic and cartoon style. I love to mix both styles to create something between.

#### Do you know.. What to do to sell images?

I begun in 2017 to sell my art, mostly on eBay and now opened my first site. I use a lot of social networks and advertisement websites to get new customers and raise my name but it's a long way to the top and everyday I learn something new.

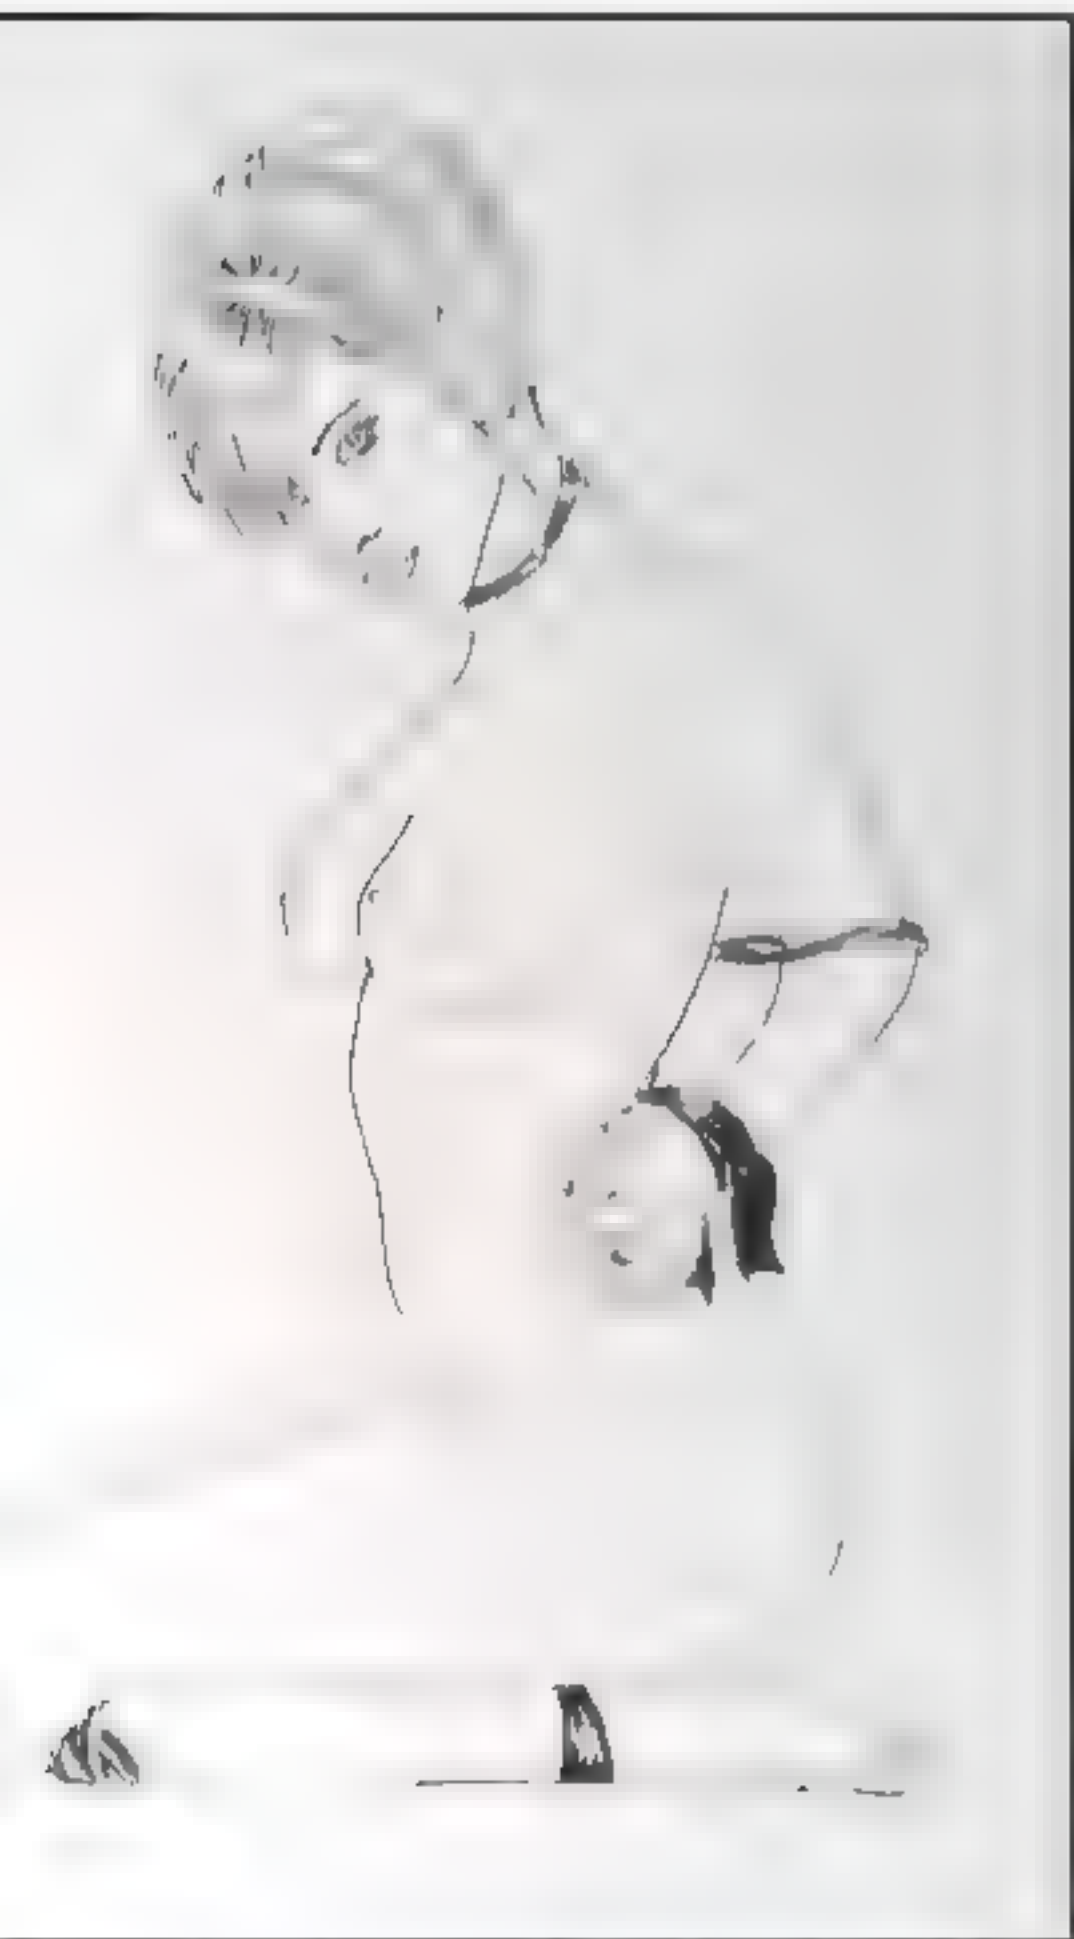

**How did you get started in drawing?**

I always had a little talent in drawing when I was a kid. I drawn everything I wanted. I liked to draw things my way and not listening to censorship. Later my wife encouraged me to publish my drawings and to start my own business. And here I am

**What makes you different from others?**

I do things my way and don't listen to critics or censoring. Any of my art is a piece of me and contains my blood and my dreams

**Your drawings have a very colorful and personality Are some painter influenced your style?**

Ever since I was a child I was addicted to comics and become a fan of a few artists like Frank Cho, Paolo Eleuteri Serpieri and Dave Annis.

**How do you think the drawing coexists with new media?**

I love to draw the old fashioned way with pencil and paper. That's what I started with and that's how I will end it one day But specially new medias like social medias help me to increase my name and my art. Thanks to the internet I got in contact with customers and other artist from all around the world.

**What is your definition of beauty?**

The real definition of beauty isn't what the society wants you to believe it is. It's all the little things which make your heart flip even if you never noticed it before. A smile you can't forget, eyes which never loose you and a female body naked and candid

**Do you have any recommendations for all those people who start drawing?**

Don't give up and don't give a fuck about the people who badmouth you and your art. Critism is a good way to see your art from another angle, but never let them get you down. And the most important thing is Draw, draw draw

**What is the most tedious task in draw art?**

At the beginning I hated to draw long hair. It took me hours to draw them perfectly and I failed a lot but I never given up. But the more I draw it the better becomes the result

**Where does your inspiration come from?**

My inspiration comes on many ways. When I watch a movie, listening to a song or look at pictures or art from other artist. Then I'm thinking. How could I use this? Also my wife inspires me daily

**Why you paint erotic and BDSM art?**

Erotic art gives me the liberty to fully evolve myself and my feelings. It's a valve to realise my fantasies

**Future projects?**

When everything runs fine I want to start visiting conventions and maybe releasing some artbooks.

**And finally, would you like adding something for our readers?**

To verbalize the band Journey: Don't stop believin', hold on to that feelin'

# DAVINO PHOTOGRAPHY

**In a tweet size, how would you describe yourself?**

A dreamer who wants to change the way people think about life and reality.

**Why did you become a photographer?**

I wanted a new career and skill set to learn and master. It was intriguing to learn about light, tech, software, and composition.

**Do you consider yourself a Fetish photographer? Why?**

I am curious of and personally interested in various types of fetish. Fetish reflects the psychology of our natural and nurtured desires.

**What is your definition of beauty?**

Imperfection

**Do you believe photography is underestimated and considered a minor art?**

Photography is valued and considered important, but not for the right reasons. The photog and viewer see the world very differently.

**Is the world ready for your photos?**

By viewing my photo art shows, the world sees what they did not know they desired.

**What is your favourite shooting theme?**

I like edgy themes of people in uncomfortable and artsy portraits that invoke thoughts of social and personal change whether in the areas of gender and sexuality to animals and the environment.

**What's your shooting style? Are you a fast shooter or a slow shooter (ie in a session do you take a lot of photographs vs just a few but spend more time on each one)?**

I started out as a fast shooter hoping to get just the right shot. Over the year I began to do more work in camera and wanted to be patient for that right composition.

**How do you prepare your sessions?**

I ask the client or subject what they want to achieve in the session. Then I share my thoughts. Through this conversation we have a synthesis of creative ideas. Most venues can become a studio for me.

**How important are wardrobe and make-up in the final result on your images?**

It depends on my vision for the composition. For some art shows not so much because I have different emphases. But for others, it is essential if I want to bring out a particular look. I next want to shoot a fashion latex theme.

**Is it difficult to gain your models' trust?**

Not really. I get to know the person a bit and want to showcase his/her voice and thoughts into the session. When they know I want them to be heard and seen, they are all in.

**Have you ever run out of inspiration during a photoshoot?**

No, there are never ending ideas for how to shoot with respect to angles, gestures, postures, etc. I typically shoot an image and then know I have what I want.

**Do you like sharing all pictures or do you keep some only for you?**

Anything I shoot is available to the model. I want them to be happy and feel beautiful about the process.

**Do you believe that feelings can be portrayed?**

Absolutely. All sorts of moods

and desires and feeling can come out in an image. This can be done by light and shadows, camera angles, facial expressions, and posture.

**Do you prefer to shoot in a studio or in a location? Why?**

It depends on the effect I want. I prefer locations typically since I am an organic guy. A studio is more controlled yet clinical. Locations are the idea because I want the location to make the image rather than the image be more static in a studio.

**What makes you different from other photographers?**

All photogs are on a spectrum. Some will take more risk and be more creative. I certainly want to shoot anything and everything edgy and artsy but for the purpose of raising awareness and educating. I have a strong social activism in me.

**What is more important today: mastering the camera or Photoshop?**

Both are essential. Learning the camera tech and being able to shoot more in camera makes PS easier. As well, PS can minimize some camera mistakes. It really depends if a photog wants to have a particular style, and then PS becomes more important.

**What equipment do you use? Why?**

I like the Sony a7rII and G series lenses. The sharpness and quality is unrivaled. They perform incredibly well and provide the tech that helps me take epic shots.

**In the digital era, can anyone be a photographer?**

Anyone can learn a bit of something, but few can become fluent. Anyone can take a picture, but few can create and process a composition.

Do you prefer B/W or full color pictures? Why?

Full color because I want to make people see images and colors that they typically never see

What is the most tedious task in photography?

Processing the images.

Have you ever dreamt something and when you wake up you thought "I have to express it through a picture"?

Yes, vibrant colors from black

light and body paint. I did this very art show a few weeks ago

Is there any person you would specially love to have in front of your lenses?

A couple who has some beautiful body ink and is in provocative poses in a boudoir setting

Tell us about your future projects

I would like to shoot a fashion latex theme with a couple girls. It would be over the top hair and

makeup and risque latex clothing.

And finally would you like to add something for our readers?

Fantasies and dreams should become reality. We dream and desire because our consciousness wants to live them out. Pursue life and love fiercely

VOGUE

**In a tweet size, who's LatexVogue?**

Terra and Jerry, latex couple from Czech republic, who enjoys to wear rubber and latex outfits and also design them

**Is the world ready to use your designs?**

(Jerry) Definitely :-D Lots of people from all around the world are already using our designs. So definitely YES

**Is it easy to stand out in this industry?**

(Jerry) Competition is a good thing and it is never easy to stand out. Our main focus is on the quality, we don't try to over design stuff, but we want them to be well made. Also we try to focus on customer service

**How do you see the trend in alternative design in Europe? Is it still just for a niche market or do you think the market is widening and that we'll see the day when it's integrated within everyday clothes?**

(Jerry) Well, the market is more open for sure, more and more people want to try latex, but integrated in general public? Well I think, we have to wait for that

**How do you feel about mixing different materials to make outfits?**

(Terra) If you mean like latex as a base "layer" and then some other materials as accessories, then

sure, why not. But if you mean latex merged with let's say lacing.. not our cup of tea at this moment.

**Where do you get your inspiration to create a new collection? Which are your major influences?**

(Jerry) Most of the time, it rises from our own need of that particular outfit or accessory.

**Is yours more a fashion brand or a fetish brand?**

(Terra) We are definitely fetishist from the nature. So to put the words in right order, we made Fetish Fashion :-)

**Near future plans. what's on the table for the next few months?**

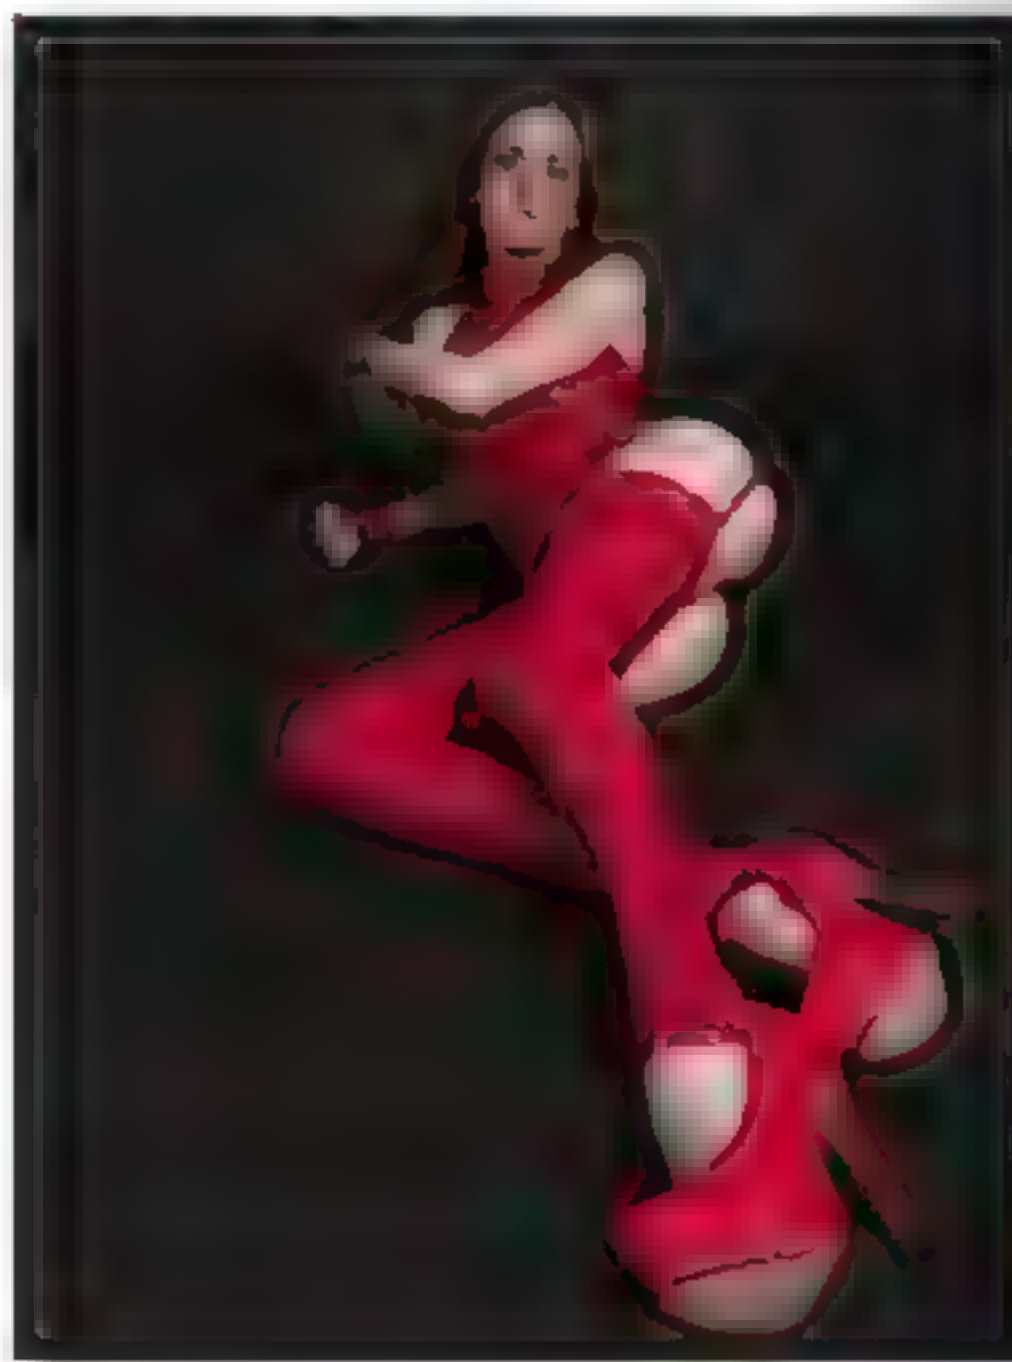

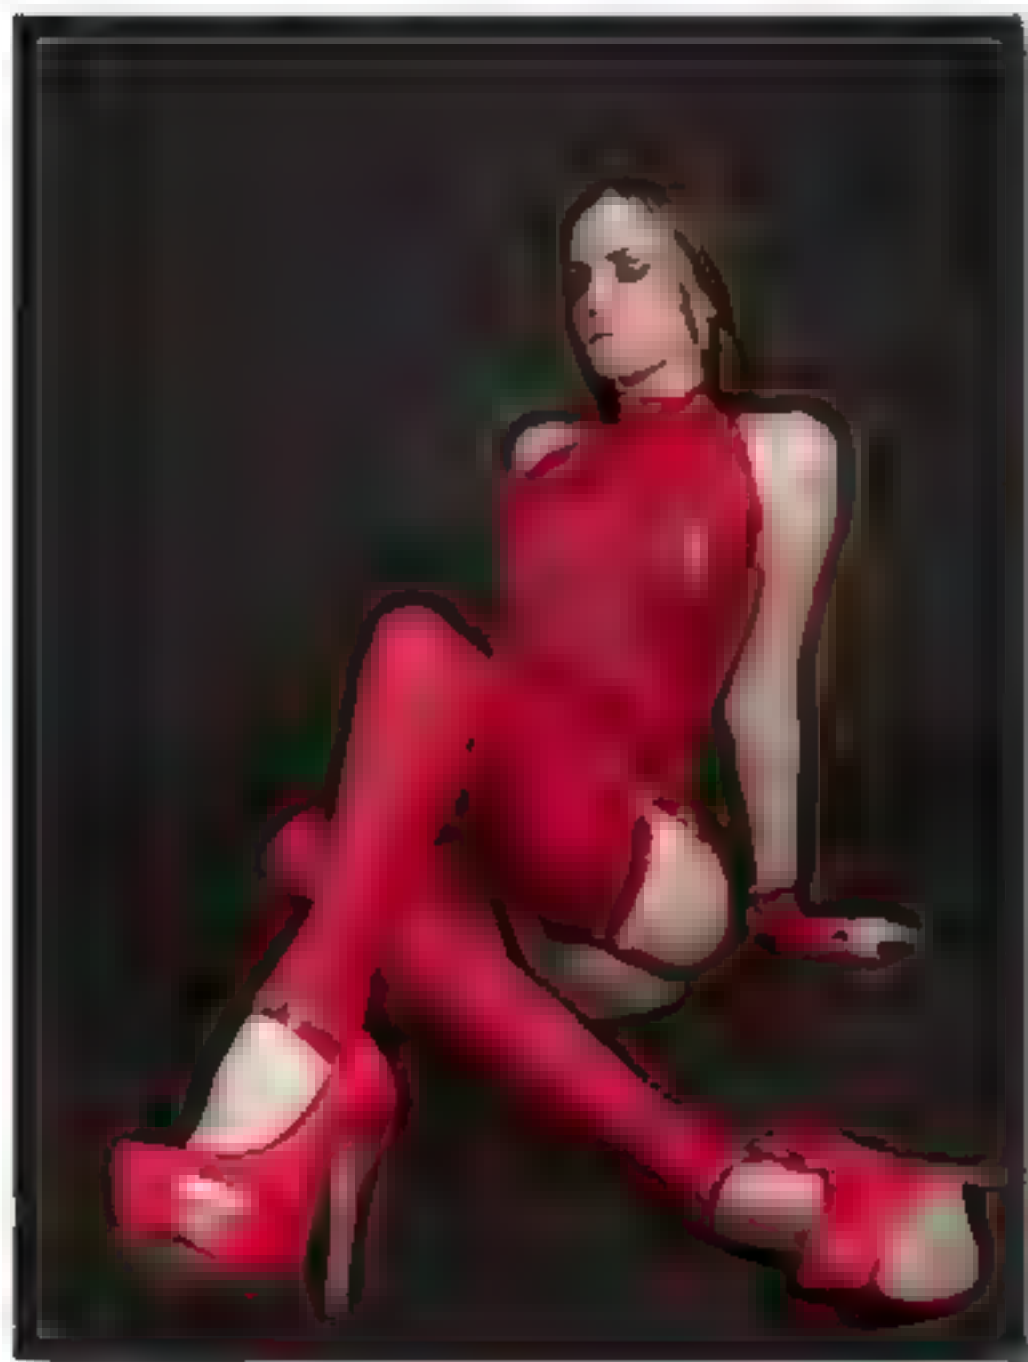

(Jerry) We are always trying to push our creative minds forward, so definitely working on something new as we speak :-)

**Tell us which are your goals (dreams?) as a designer**

(Jerry) Nothing spectacular, the best goal for us is to have happy and satisfied customers. Which I think we are managing at 100% :-D

**Which celebrity would you love to dress in one of your creations?**

(Terra) P'nk would look awesome in our upcoming collection :-)

**If someone wants to buy one of your creations, where should they go? You do all your pieces custom made to your customers or do you have some "of the shelf" pieces that people can buy or order?**

(Terra) We have our e-shop full of latex ready to order. Most of the stuff is made by order. You can also make a custom request. Sky is the limit :-). But from time to time, we put some outfits to our shop that were used for promotional purposes for discounted price.

**What would be your recommendation to someone who wants to buy their first Corset?**

(Jerry) Feel free to contact us, we will discuss that individually.

**Do you think fashion and real life can mix?**

(Terra) They can, we try to dress latex as often as we can, as a casual home clo-

thes, or sometimes even to go for shopping etc.. But as we said before, if we talk general public.. we will see :-)

**What is your definition of beauty?**

(Terra) Beauty, that is something which is almost every time individual.

**What would you say to our readers to be encouraged to buy your designs?**

(Jerry) If you're looking for the top quality and fair price, look no further and go check our shop at [shop.latexvogue.com](http://shop.latexvogue.com) D

**Is there anything you would like to add?**

(Both) Well, not at this moment. Just we'd like to thank you for this opportunity, to be presented in your awesome magazine.
